## **BLACK ANGUS**

*18th Annual Bull & Female Sale*

*Monday, April 13, 2026*

*1 P.M. at the Farm Whitewood, SK*

# TRIPLE J BLACK ANGUS

## *Welcome to our 18th Annual Bull Sale...*

We would like to start by Thanking everyone that has attended our sale in the past. This year we would like to welcome our guest consignor Brian Eilers and Family. Brian started buying at our 1st sale and has built a small purebred herd to go along with his commercial herd.

We are striving to produce functional cattle that will work in anyone's herd.

This year's group of bulls are more uniform, have more thickness and more muscle. They are on a 4-acre paddock – they are not fat but muscled. They are fed an oat silage ration.

We stress good feet and heel, natural thickness, length and depth of body. Easy doing cattle with lots of hair. Females with good udders attachment and teat placement, fertility and pelvis. And mostly good disposition.

I dug deep into the heifer pen and these heifers are what you call excellent quality. Several of these heifers would do well in the shows but mostly will make good cows.

We would like to Thank Donnie Peacock our auctioneer, Derek Reimer our nutritionist, Don Olberg and Jack Auction Group – Brennin Jack, Richard Bramley and Calvin Workman for helping manage our sale.

Lacey Brown for doing our pictures and videos - her crew Britney and Gracie.

Chance Jackson for torching the bulls. And the crew for getting the animals ready for picture day and torching.

To Kaidyn and Jayda for being a big help with chores and with the calving. You both are a breath of fresh air and we enjoy having you around.

To Dale Flynn for his carpentry work and Aaron Flynn for is excavating business. Job well done. To our vets Head for the Hills - Clark suggested to Andrea their new Vet- when preg checking that she would be checking Charolais meaning this is a herd with a lot of performance, length, size and pounds. Also, if they notice an animal that they think should be culled no matter what – it's gone. Thanks for your help. To Mc-Carthy Vets thanks for being there when we need you.

Most of Thank you to our new and repeat buyers as we could not do this without you.

Feel free to stop in to look at the cattle at any time.

Thank You,  
*Brad*

*On offer:*

65 Yearling Angus Bulls

17 Open Angus Heifers

1 Pen of 5 Commercial Heifers

*videos of all bulls will be available at [www.dlms.ca](http://www.dlms.ca)  
and [JackAuctionGroup.com](http://JackAuctionGroup.com)*

### Triple J Herd Health

Our vaccination program consists of Ivomec, Bova Shield Gold 5 PH, Bova Shield Gold 5 -One Shot and Ultrabac 7/ Somibac for Cowherd and Calves.

All bulls will be semen tested prior to the sale.

### Wintering

Insured Bulls may be left at the farm until May 1st and then after that at a cost of \$5/day.

### Video Sale

Videos will be available online at [www.dlms.ca](http://www.dlms.ca). and Jack Auction Group. This is a video sale so be sure to come early and go through the bulls thoroughly in the pens as they will not be coming through the sale ring.

### Insurance

All animals staying at Triple J Farms **must** be insured.

### Delivery

Triple J will assist buyers with delivery.

## From Jack Auction Group...

Pounds Matter...

What a year to be in the cattle business and 2026 looks as good or better.

When you're getting \$5,6,7,8,9,\$10/pound for your calves, POUNDS MATTER, and this entire sale catalog features bulls that will not only put pounds on your steer calves, but put milk and femininity into the females.

Triple J has been selecting cattle with good feet and structure for a very long time, and that shows in the quality of bulls in the pen.

With calf values at all time highs, now is the time to grab that bull that puts 40 pounds on his calves. Extra 40 pounds at \$7/pound = \$280 x 25 calves is \$7,000 in the first year for return on investment.

If my team or I can assist you in selecting a bull - feel free to contact us about our free order buying service, we certainly look forward to visiting with you about the cattle.

## *Terms & Conditions...*

### *Terms...*

The terms of the sale are cash or cheque payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Term can be available if discussed prior to sale. Every animal sells to the highest bidder and in case of disputes, the auctioneer's decision will be final. Announcements made from the auction block will take precedence over printed matter in the catalog. Current exchange rates will be announced on sale day. All money is in Canadian funds.

### *Certificate of Registration...*

Each animal will carry papers issued by the Canadian Angus Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

### *Health...*

All animals in the sale have met all necessary health requirements.

### *Guarantee...*

Triple J Farms will not be responsible for improper management or maintenance of your animals. All cattle are guaranteed to be sound and right at time of the sale; terms & conditions of the Canadian Angus Association will apply. NO REFUNDS. In the unlikely event of failing to breed, a replacement or credit will be provided. Bulls are not guaranteed to freeze semen. If you encounter any troubles, please notify us immediately. Under no circumstance will Triple J Farms accept responsibility for mismanagement on your part, that is between you and your vet. We strongly recommend that insurance is purchased for full value.

### *Errors...*

All announcements at sale time, written or oral, supersede any written material in the catalog.

### *Phone, Mail and Wire Bids...*

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

### *Liabilities...*

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents. It is understood that Donny Peacock is acting only as a medium between the buyer and seller and is not responsible for any obligations to collect or enforce collection of any money between parties and any legal action that may, in extreme cases be taken must be between buyer and seller. Donny Peacock assumes no responsibilities of any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

### *Insurance...*

ALL animals staying at Triple J Farms MUST be insured, that is non-negotiable.

### *Delivery...*

Assistance will be given with delivery on bulls from the farm.

**Insured bulls may be left at the farm until May 1st. After May 1st, a cost of \$5.00/day will apply.**

A 2yr old's first calf. Born unassisted. 7N should be a calving ease. His sire 16K's off spring are very strong footed, lots of heel. Good disposition, lots of hair, bone and natural thickness. Females should have lots of milk and beautiful udders.

A pedigree with some of the best genetics in the Angus industry. Natural Law 52Y, Crowfoot Blackbird 3330- still producing at 13yr of age, Chapman Memento, Dually 69G, Heavy Si 57Z, 140B, 52T foundation cows. 138G now resides at Brian Eilers.

 TJF BLACKBIRD 138G

The sire 81J is a performance bull that we purchased from Everblack Angus. Just ask Ernie Gibson - the bull is just like his offsprings: good footed, lots of heel. His first daughters are coming into production. I'm enjoying their great disposition, easy doing, lots of hair, and by the looks of things - fantastic udder development.

The bulls off 81J are very thick, heavy muscled, wide over the top and smooth made. 81J consistently throws good genetics in his calves, from his bulls to his heifers. A 3/4 sister to 81J went through a sale in Stettler Alberta for \$20,000. She has calved - lots of milk and a beautiful udder, very easy doing.

9N offers calving ease. You want maternal longevity – the whole 9 yards.

A 2yr olds first calf. Offering the best foundation of the Angus Industry. Natural Law, Crowfoot, TC Stockman365. We have calved out the Lazy E Stockman 365 daughters – best investment we made. You have depth of body, easy doing, good footed, lots of milk and beautiful udders. Every cow on the farm has to produce a weaning weight of 60% of her body weight- if she doesn't, she doesn't stay.

TJF 244H **Hoover Dam** 11N

**TJF HEROINE 125J**  
**TJF HEROINE 33B**

**PERFORMANCE BULL**

When 244H went through our sale it was because 244H was born April17, 2020. Dad asked "Are you sure you can't use this bull?" Well between Dad and Gaylin Eilers – they were both right. Brian called me said – "This is a breeder's bull, not a commercial man's bull." We purchased the bull back. If you want thickness- he's got it. He is so thick and wide- there's not a chute big enough to semen test. He is so quiet- not halter broken and has never been shown. Tied him to a panel, did a semen test and he passed.

244H's offspring are phenomenal - so consistent and very uniform. Genetics' like Hoover Dam 839L, Leachman Right Time an Elite dam, Western Freedom 505.

244H's offspring are very deep bodied, easy doing, big testicles that hang straight. Good footed with lots of heel.

A full brother to 34M – one of the most talked about bulls in our sale last year.

If you're stiving for thickness, heavy double muscle cattle that are good footed with lots of heel, easy doing and good uddered females. This is the breeding bull for you. The dam 114J is an outstanding cow who we have high expectations for.

dam: **MCCONNELL ALTITUDE 3114**  
**CIRCLE G MERLE 114J**  
**OLE MERLE 778C**

Look at his pedigree - you have all the Legends here on this calf.

A picture-perfect bull. Providing thickness, muscle shape, smoothly made. Wide and travels well with good feet and heel. Lots of hair. Milk and longevity.

A bull that is better than his sire 81. The Crowfoot cow is still producing at 13 yr of age at Devin Warrilows.

We have high expectations on 9103G

A breeder's bull

Full brother sold to Walter Brydon, Birtle Man.

We would like to retain an interest in this bull.

**FEATURE BULL!!**

**PERFORMANCE BULL**

A big-time bull here. We are highly impressed with the Dually 58K - They milk well, very fertile and easy doing cattle with good feet and lots of heel and hair. A performance bull here that will put pounds on your steer calves and build a cow family for replacement. The dam of 58K resides at Brian Eilers.

A full brother to 66N was one of our highlights in last years sale. I'm looking forward to calving 2046J daughters.

66N is going to be big, long, very thick and wide over the top. Good footed with lots of heel.

One of the reasons for purchasing 2046J – Hoover No Doubt - females are top females at Peakdot. Can't wait to see in production.

**PERFORMANCE BULL**

Very similar to his sire 244H

You have to go a long way to find a bull like 244H. Like we said you can't get him down a chute to semen test. He is that thick, very wide and so deep with great disposition. People that have seen him guess he weighs between 2600-2700 lb

He was not pampered- just ask Brian Eilers

### FEATURE BULL!!

Feed back we have gotten back from the commercial man on the Stockman's is that they have good feet and heel, very easy doing, very muscular, lots of hair and great disposition. Which describes 76N. As well Sockman's have beautiful udders with lots of milk.

His Dam 117G is a moderate framed cow weighing 1450-1500 lb. Joe Bandura strives for good feet, legs and excellent udders while maintaining easy doing cattle. He is a great cattleman raising only the best quality. I encourage people to see his herd.

We would like to retain a piece of 76N.

Words cannot express the gratitude and appreciation we have for Brad, Sharon, and the entire Triple J crew for letting us join their sale. It is truly an honor and a privilege to be able to present to you this offering of bulls and commercial heifers.

My grandfather started working our farmland in the early 1950's; and now with myself, Laura, Tori & Everett, and Deacon working along side, we are a 4th generation working farm. Elynor is now the 5th generation, and we are excited to watch her grow and have the same love for the animals that we all have.

Our selection of bulls have been developed with longevity in mind, as they have good growth but are not carrying all the added sale day weight that will just melt away in the first month(s) of working in your pastures.

Again, a huge thank you to Brad for all your guidance and mentorship in this venture. Please feel free to reach out if you have any questions in regard to the animals we have on offer.

*Brian*

### Heifer pen alert!

Three numbers to look at here, CED, BW, and CEM. All in the top 15% of the Angus breed. He boasts a nice and tidy 67 lb BW of his own, this Stockman 74L son will also add muscle and hip structure to your calves.

 TJF BLACKBIRD 138G TJF HEROINE 165B

I put this female in the sale for Outcross Genetics as well as strong cow families.

James Sykes from McCauley Mb a commercial breeder bought one of the high selling bulls off 165B. He still has him. I like his knowledge and his thinking- most of all he will tell you up front when the daughters hit production and what he thinks of them. If he says they are good- they are good.

Easy doing cattle, with frame and length. He doesn't believe in small cattle. They have to be reasonably big, long and thick and have to milk. Good feet is very important.

## TJF Heroine 99N

TJF 124A HOOVER DAM 41E TJF DYNAMITE 11Y

Sire: **TJF 41E HOOVER DAM 244H** dam: **TJF LADY 137D**  
 TJF HEROINE 153A TJF PD LADY CHIEF 58S

I put 118N in the sale because when Gaylen and Brian Eilers purchased 244H as a yearling Dad said "that's your best bull". Brian called and said you better come see the bull. He was right 244H is a breeder's bull and we had the chance to purchase him back and he will stay one of our herd sires for a long time.

52M has calved and is doing a beautiful job - she's off of Hoover No Doubt.

You can't go wrong with Hoover, Leachman Right time 839L, Western Freedom Widespread, Old Genetics - proven Genetics

Sire: **PEAK DOT NO DOUBT 2046J**

dam: **J SQUARE S MLG KARAMA 947**

PEAK DOT DUCHESS 540A

REMITALL F KARAMA 451

Strong cow family.

1L has calved and Jayda - our hired help - does know cattle and this is one cow she picked out. 131N is a female that you will build a herd bull with and also a cow herd around and also make you some money. A full brother was the high selling 2046J son in last years sale

131N

*Sire:* **EVERBLACK BIG SKY 81J**    *dam:* **ARY PRINCESS 713E**  
 EVERBLACK LUCY 201C                BROOKMORE PRINCESS 18B

This is a heifer I should be keeping- but if your going to put females in the sale your best go in.

713E was top selling female at Ary's dispersal. She has done an excellent job here with Big Sky 81J, Lazy E Excitement, Sitz Upward. This female should make an excellent producer.

## TJF Betsy 184N

*Sire:* **LAZY E STOCKMAN 8H**    *dam:* **TJF BETSY 18E**  
 EARLEY ELAINE 41Y                      TJF BETSY 128B

18E has calved an excellent heifer - sired by 244H bull. This female is good. With genetics like she has how can you go wrong. I put the best in. One thing I'm doing to brag about her is the milking ability, beautiful udders, nice teat placement and nice feminine headed females – the Stockmans are.

## TJF Heroine 194N

PEAK DOT DUCHESS 540A

TJF RAINMAKER PRIDE 39B

A larger framed heifer with lots of thickness and length. Double bred Ambush, Hoover Dam, Freedom 505, and Bando.

A heifer with a lot of performance in the pedigree.

## Pen of 5 Commercial Replacement Heifers

consigned by Brian Eilers, 204-851-6608

Our commercial herd is made up of a black angus base. Over the last number of years, we have added a little Simmental influence to add to the herd base. This group is compiled with 3 heifers with PB Angus sires, and 2 with a PB Simmental sire. These are 5 of the top replacements from our commercial herd.
