

The background of the entire image is a photograph of two Simmental bulls in a grassy field. One bull is in the foreground, facing left, and the other is further back, also facing left. They are both reddish-brown with white faces and legs. A wire fence is visible between them. In the background, there are evergreen trees and a cloudy sky.

Westgold Farms Ltd. & Grassy Flat Ranch Ltd.

18th Annual Simmental Bull Sale

Monday, February 16, 2026

Sale at 2:00 PM ♦ Lunch at 12:30 PM

Vermilion Livestock Exchange, Vermilion, AB

Ken Gilbert
Ph (780) 593-2103
Cell (780) 581-4135
 Westgold Farms
 Minburn, Alberta

Welcome to my 18th annual Simmental Bull Sale. Always stressing the importance of moderate framed, thick, good uddered cows with a good disposition and stout high performance bulls. The offering has grown to front end quality red black and fullblood bulls. Many red and black bulls are homo polled, all are the right kind. Each group definitely has true breeder bulls and top end commercial bulls.

Call or drop in anytime prior to the sale to evaluate the bulls for yourself, it will be well worth your time!

New sale location: sale will be at VLE in Vermilion.

Best regards,
 Ken

**Last year 85% of
 my bulls sold to
 repeat customers**

**No bulls are ever
 sold prior to the sale**

Visitors welcome to view cattle at any time.

**Directions to Farm from Minburn: 5 km north to "T" corner, then 1 km east to RGE RD 101,
 then 5 km north, farm on east side.**

18th Annual Simmental Bull Sale

Monday, February 16, 2026 at 2:00 PM

Vermilion Livestock Exchange, Vermilion AB

Refreshments Before & After the Sale, Lunch At 12:30 PM

Guarantee: All bulls are guaranteed to be satisfactory breeders in accordance with the Canadian Simmental Association guidelines. Should a problem occur, barring physical injury or mismanagement, a bull of equal value or a credit will be issued towards the purchase of another bull.

Delivery: Free delivery to central points in AB and SK as well as to the MB border. Delivery will begin at about APRIL 1st at the seller's and buyer's convenience. Take your bull home sale day and save \$200 per bull. Bulls returning to seller's farm should be insured. Any bulls left after April 15th, there will be a \$5/day charge and to be picked up by the purchaser.

Semen Reserve: We reserve the right to draw semen for in herd use on any bull in this catalogue. Semen will be drawn at our expense and the buyer's convenience.

Health: All bulls will be vet checked, scrotal measured, weighed and semen tested. All bulls are treated with Noromectin Ultrabac 7/somnicgen, Pyramid 4/response and double vaccinated with fusoguard.

Terms and Conditions: All bulls sell under the standard terms and conditions as set forth by the Canadian Simmental Association unless otherwise stated here.

Announcements: Announcements at the sale by the auctioneer, owners or sales management will take precedence over the information provided in the catalogue.

Sight Unseen Purchases: If you have interest in one or more bulls but are unable to attend the sale, contact the seller of the bull(s) of your choice to discuss the bulls with you and then forward you on to one of our professional and confidential sales staff members.

Welcome to the 2026 edition of the Westgold Farms and Grassy Flat Ranch Simmental Bull Sale. This offering represents the 18th annual sale and what an incredible set of bulls it is. The unwavering commitment by both of these operations to source the best walking herd bulls they can is as evident as ever before. The consistency across all colours is mesmerizing as they are appropriately framed beef bulls with structural integrity, hair and do-ability wrapped up in an eye appealing package. The working cows behind these bulls are as good as anywhere with a great deal of emphasis put on foot and udder quality and production. You can invest with the utmost amount of confidence in the Westgold and Grassy Flat bulls to offer a positive impact to your bottom line. They are performance orientated cattle with loads of maternal quality. We are proud and excited to assist both of these operations in the promotion and selling of this great set of cattle and encourage you to reach out to Ken, Dusty or any of us at BMS to answer any questions you may have. We would be happy to assist in your next purchases. Be sure to mark Monday, February 16th 2026 down on your calendar to take in this great offering at the Vermilion Livestock Exchange. With today's market, you can't afford not to surround yourself with the highest quality of stock and if your serious about moving your program forward, you've come to the right spot to source your next purchases. We look forward to visiting with you.

Best Regards,
 The Bohrson Marketing Team

GRASSY FLAT RANCH

Dusty Garnier (780) 870-8874

Email: grassy@mcsnet.ca

Facebook: Grassy Flat Ranch

Welcome from Grassy Flat Ranch.

Erin, Mia, Avery and I would like to welcome you to our third annual bull sale. It's a great time to be in the cattle business seeing record prices last fall. Mia & Avery continue to grow up in front of our eyes and are becoming more and more helpful around the farm everyday. They keep Erin busy traveling to hockey, ball, and 4H among other things, Erin is also very busy with her Kindergarten class. No better time than now to say a huge thank you to Mom and Dad for all their dedication to the farm. Dad is always up for hauling cattle to pasture or the market, never says no to parts runs, and hauls bales off the field faster than we can make them. Mom continues to keep track of all the cattle records, has made every round bale we have, and is with me day and night with the cattle. She knows and loves cattle.

We are extremely proud in the quality of our offering. The bulls are a very solid and functional set. They came off pasture for weaning and have been on a silage based TMR with a Bullseye bull developer pellet ever since. We want the bulls to be in good flesh, but not over conditioned to give them the best chance of a long future in front of them. We are both a purebred breeder and commercial cattlemen and feel bulls can't just work in the showing but must produce in their true environment. We will stand behind our bulls, and we hope your purchases make you nothing but profitable.

Lastly, we would like to thank Ken for allowing us to partner in the sale again this year. He has not only been a strong believer in our program but continues to support our girls in their rural lifestyle. He has been there to see their growth and achievements in 4H and recently gifted them a bred heifer to start their own herd.

If you have any questions about our program or the bulls on offer, don't hesitate to reach out. As always, we would love to have you come to the farm for a coffee and to appraise the bull pen. Looking forward to seeing you at the sale.

Dusty, Erin, Mia & Avery

I've been waiting all year to make this footnote and could fill the page. Nashville is a performance machine that offers sheer capacity and scale. Deep ribbed, heavy muscled, standing on a nice big foot. So similar in make-up to WJS 6K, our walking herd sire that we are extremely proud of. Not only did 6K do his part, but the maternal backing is equally impressive with a flush dam that has such desirable udder quality ensuring his daughters will bring value long into the future. This docile fella will find lots of friends on sale day.

New Yorker come to us in dam as a result of a purchase from the Rendezvous dispersal, one we are sure glad we made. He is attractive, soft sided and soggy made. He offers tremendous top and quarter while still moving very free and correct. An excellent EPD profile and wicked pedigree make him easy to appreciate. He's the real deal.

Novak is a chip off the old block, so similar to his sale topping sire Broker 39K. A dark liver red moderate fullblood with so many good qualities. His pedigree stacks generations of reliable maternal strength, terrific structure, and longevity while maintaining performance. His calm nature and perfect double goggles are just icing on the cake.

Here is a bull that can do a program a world of good. Nestle is the only polled fullblood we have on offer and a true sale feature. So dark red he almost appears to have a tinge of black! Not only does we carry an 82lb birthweight, but his angular build and nicely shaped head speaks easy calving. As an added bonus, he's very easy to handle.

Noble has been a standout fullblood from a very young age. A Reputation son that doesn't leave much to your imagination. He is stout, heavy-made bull that combines real world performance with structural correctness. Noble brings together maternal reliability with that extra punch of growth, and he's a quiet bugger too! Co-owned with Black Gold Simmentals.

Both sides of Nico's pedigree are built to create a winner and have done just that. A thick butted, big topped bull whose progeny will certainly push down the scales. In the words of Rich Mc, his young mother Lovely is just that.... Lovely. A model cow we can see will be a true Matriarch here at GFR in the future. Nico is the type to add substance and shape to steer calves while leaving females that will stay in the herd for years to come.

Nexus is a lighter birthweight well balanced bull with a level hip and functional design. His dam was our pick out of the Black Gold Evolution sale in 2023, a no-nonsense cow with exceptional udder quality and fertility. He exhibits an overall completeness of calving ease, growth and maternal excellence.

Nitro is very easy to spot in a deep pen of bulls and catches your eye almost immediately. Thick topped, deep sided with an expressive quarter. An athletic bull that moves like a cat, Nitro is built to cover ground and I would expect him to hold up under heavy service. I hate to see him leave, but I love to watch him walk away.

With that added frame size we seek, Napa's extra length and stretch will no doubt consistently generate those heavy market topping calves. He carries himself with ease on a good set of feet and legs, which make him an excellent choice for a program looking to add pounds without sacrificing functionality. Napa also might just be the most docile bulls in the pen. Let him quietly go to work and improve a herd.

I feel Nero sometimes gets overlooked in a deep pen of bulls. He is rugged, deep sided and heavy muscled in a moderate package. Dark liver red with those perfect double goggles and has a great disposition to go with it.

Dilutor Free

DAM OF LOT 48

Working with Grassy Flat Ranch on their bull's nutrition program has been great. Dusty and his family want their bull pen developed correctly and safely without cutting corners. They are very keen seedstock producers with a great eye for cattle and I hope that you can make it in person to see this set of bulls.

The bull development program is built to maximize forage utilization and gut health. All forages are sampled and analyzed to ensure quality feed sources are used. Once the calves are weaned, they are slowly transitioned to a TMR feed along with a complete feed pellet. The TMR is forage-based and is designed to promote lean muscle growth, allowing the bulls to express their genetic potential. Rumen health is of upmost importance, which is why a probiotic, suitable protein sources, and proper starch levels are fed to the bulls. Organic minerals are used both on the cow herd and sale bulls to ensure proper immune function and overall health.

Grassy Flat Ranch uses a total nutrition program on their entire operation, ensuring optimal performance and health of their cattle. If you have any questions about the nutrition of the sale bulls, please feel free to call. *Best of luck on sale day!*

Sometimes you just get one that feels like a Grand Slam and Nash is just that. We knew we had something special at a young age, but Nash has never taken a step back since. With only an 86lb birthweight, he cashed in our top weaning weight among all the bulls and continued to excel on feed ever since. He is a favorite among many astute cattlemen that have visited the bullpen. A great disposition, a solid foot with ample bone, and that sought after plum purple/red that is hard to come by. He has that next level degree of stoutness that must really be seen in person. Wide topped and bold through the center body that carries down low. Nash certainly checks all the boxes, and I challenge you to find a hiccup with this one.

Meadow View has always been a personal favorite of mine. One we halter broke for Stockade Round-up but ran out of time. A deep dark liver red, powerfully constructed bull built with that extra horsepower. He carries muscle deep into his lower quarter and has the foot and bone quality to last. His mother 18F is a cow I just love to show off and will have a flush date in her near future. The kind of bull that could be used by seed stock producers or commercial cattlemen alike.

Newberry is quite a unit. I would love to take credit, but that goes to Rendezvous choosing to breed his fullblood dam to a purebred herd sire. He has wicked eye appeal and so much natural muscling. Dark red, thick, deep, and quiet are all qualities he owns. Ranked in the top 20% and 25% in calving ease and birthweight respectively without sacrificing growth makes him an excellent choice for producers building an efficient profitable herd.

Where do I start with writing a footnote for Napa. A very stylish heavy haired bull that has a tremendous thick top and square hip. With an 86lb birthweight and terrific set of EPD's, should add that calving ease to growth ratio we all seek in the breed. No guesswork here, Napa will add that dark red color to his calves and the heifers that won't leave the keeper pen.

Northstar is a bull that makes me stop in my tracks when I'm choring just to take a longer look. A moderate deep bodied Reddington son, one that is maternally focused and bred to build cow herds. He exhibits a soft easy fleshing look and stands on a solid correct foot. You will want to keep every female. He has a calm demeanor, style for days, and I can't wait to see how he advances someone's program.

Heifer bull alert!! The youngest bull in the pen, but you would never know it. Co-owned by Mia and Avery, from KHG 14L, a bred heifer they hand picked from Ken's herd. New Era is a smooth shouldered, low birthweight bull with a long front and clean head shape. Ideal for cattlemen wanting calving ease, without giving up muscle or maternal quality. His calves will come easy and still have lots of grow. New Era's young dam has one of the nicest udders on the farm. Check out his EPD profile! One that likely shouldn't be leaving here.

Here is a dark red, blazed face option. One you could use on second calvers or cows and still get some sleep at night. He is quiet, fault free and travel with ease. With that baldy face, you will get a little chrome on his offspring, and his calves should catch you a quick ROI.

A heavy haired, beefy, dark red bull that brings extra muscle and power. His dam is one of the hardest working females already leaving us a replacement heifer and a bull that sold to Stan Richards in last years sale.

Northwind is one of the youngest bulls in the pen. We bred his purebred dam to our new SAJ herd sire to add that extra frame and white face. We shipped his dam due to age, so Northwind was forced to figure things out on his own at a young age but continues to gain ground everyday. Don't let numbers fool you, there is some real value here.
