BULL SALE | MARCH 7-8, 2026
Online with **DLMS FARM GATE TIMED AUCTIONS**
Selling Simmental, Maine, & Angus Bulls & Select Females

WELCOME FROM
the
ASSOCIATES

On behalf of THE Associates Group, welcome to the 2026 Bull Sale. There has never been a more exciting time to be in the beef business. With record-setting prices and optimism at an all-time high, investing in a quality herd sire has never been more important. The bulls you select today will shape the profitability of your program for years to come. This year's offering represents a carefully assembled group of bulls from smaller, dedicated programs that all share one common philosophy: producing high-quality, dependable seedstock. We're proud of the consistency, performance, and structural integrity throughout the sale. Whether you're searching for added power, proven calving ease, or balanced genetics, you'll find bulls here that can fit a wide range of operations—improving steer performance without sacrificing your replacement females. We would like to sincerely thank all of our past buyers, bidders, and everyone showing interest in this year's sale. Your continued support means everything to us. Please don't hesitate to contact any of the consignors with questions about this year's offering, and we encourage you to come walk through the cattle on display at the Stettler Ag Society grounds. We look forward to seeing you sale day and helping you find the next herd sire to move your program forward.

*Sincerely,
The Associate*

Correction Line 503N is the embodiment of what we strive for in our program. Cattle with enough performance while maintaining a sound structure and correct feet. He offers the right balance of thickness and ruggedness, without sacrificing eye appeal. Backed by a stacked pedigree, this bull is built to make things right in a lot of programs. As a bonus, Correction Line turned heads by being named Champion Percentage Bull at Farmfair, further proving that when you start with the right foundation results speak for themselves.

KKS MISS BEAST 101J
KKS MISS BEAST 918G

Faith purchased BOE Rig 333L in the 2024 Denver sale from Mark Beauprez. He is an outcross to Maine genetics in Canada. He calved great and the calves outweighed expectations. 550's Dam is faith's last 4-H heifer out of the dam of the kks 505n bull in this sale. 550 is as sound and long as it gets. He's bred for calving ease but doesn't lack the power of the other bulls we have in the sale. I think this bull has a lot to give in terms of style and structure and could be a lot of fun to own.

Here he is! The most talked about bull calf that we have ever campaigned. We have been trying to make an elite purebred red Maine-Anjou for awhile and when this guy came out red we couldn't have been more excited. With the combination of muscle, bone, shape and true masculine character, we believe 510N can be a true herd changing sire for any breeder in the country. 510N is the closest thing to royally bred as you can get at Pick Six. His mother has produced multiple national champions including Pick Six Heaven Sent 02H the World Congress champion in 2021. His sire was at the side of LSCC Sweetart 121E when she was proclaimed Agribition champion in 2023. Power in the blood!

ANCHOR D MONTARO 462H **ANCHOR D MACS ZOE 731K**
 ANCHOR D BAILEY 462D ANCHOR D HAZEL 409H

- Smooth through his shoulders with a strong foot supporting him
- Comes from a dam with an almost show quality udder, and a sire that has stamped his daughters with phenomenal udders
- Should calve like a dream since the dam has exceptional calving ease and a lower birth weight
- Halter broke
- No creep. Only milk and grass.

WHF SUMMER 365C				JT JAR OF HEARTS 61A			

DDF Double Prime 10N is a stout, well-balanced bull with the muscle shape and structural correctness that mark him as a future herd improver. He's wide-based, clean-fronted, and carries a smooth, level top with impressive depth of body. His calm disposition and athletic movement make him an easy fit for any program. Backed by our 831F cow that we acquired from JT livestock and she has been an absolute rocket when it comes to making them good with what we threw at her, Double Prime 10N offers reliable growth and maternal strength in one sharp package. *Homo Polled, Homo Black.*

One of the three JT Amperage sons I'm offering this year, out of my cow Queen of Hearts. Amplifier packs the punch. His combined performance and maternal strength will add consistency and quality to either purebred or commercial operations. His dam has a great udder where there is no shortage of milk. Sired by JT Amperage, who is a powerful, performance-driven bull known for adding muscle shape, rib, and eye appeal while maintaining structural correctness, this is quite the combo. JT Amperage is an embryo calf out of Painted Lady, a well known cow for her excellent performance and ability.

SGB Painted Knight traces directly back to the influential Painted Lady cow family, coming from a daughter of the original Painted Lady, also bearing her name. This proven maternal line is known for longevity, consistency, and performance that holds up year after year. This makes him a half brother on the opposite side of his pedigree to my other bulls as JT Painted Lady and JT Amperage are flush mates. Painted Knight is sired by JT Violation, a powerful bull that combines extra spine and length with exceptional docility. Quiet, steady, and easy-going in nature, Violation is known for his calm presence, and SGB Painted Knight mirrors that same relaxed disposition. His 70 lb birth weight screams heifer bull and with his balanced build, structural correctness, and dependable temperament, Painted Knight offers a valuable blend of power, function, and reliability for any breeding program.

SGB Amplified is sired by JT Amperage, a bull recognized for stamping his progeny with power, muscle shape, and a strong topline while maintaining structure and eye appeal. Amperage consistently adds depth, thickness, and performance, backed by the influential Painted Lady cow family known for longevity and productivity. His dam, JT/CWSS Hennessy, is a cow admired for her strong maternal look, excellent udder quality, and overall functionality. We purchased JT/ CWSS Harper in red and black and was so pleased with her so I sought out and purchased her bankroll dam Hennessy. Amplified is flashy. His long neck, white face and depth of body makes him a true looker. He packs a punch with a strong spine, deep back, and extra thickness, offering a combination of proven pedigree, performance, and standout style.

SIMMENTAL/SHORTHORN

SGB Miss Hollywood is a half-blood Simmental female with the added length, balance, and eye appeal. She is sired by JT Violation, bringing the power, muscle shape, and a proven performance pedigree to the equation. Her dam is a commercial Simmental X, offering functionality, durability, and maternal strength. Hollywood is long-bodied smooth made female, with the kind of structure and flexibility that make her useful in a variety of programs. This heifer combines show-ring look with real-world practicality and has the potential to develop into a productive, easy-keeping cow with added market appeal.

			RF SHAKEDOWN 074H	RF CAPACITY 742E			
			RF BOOMER 262K	RF MISS 085H			
			RF FLIRT 850F	RUST MISS 6202D			

The natural calf off the 085H donor with a user friendly 90 lb birthweight and an 800 lb weaning weight. Good hiped with extra muscle and a soft look all in a moderate package with big time growth EPD's being in the top 3% WW and 2% YW. The RF Boomer bull raised sale highlights throughout the fall, and with the RF 085H cow behind him, 501N should be on the short list of bulls to add middle hair and power. Maternally stacked with good numbers and the look to go with.
