BULLS ON OFFER

19 Red & Black Gelbvieh
33 Red & White Charolais
38 Red, Black & Fleckvieh Simmental
19 Yearling Black Angus

- All bulls are semen checked and veterinary inspected.
- Semen tests, all scrotals and weights will be available sale day.
- Half down on sale day with a May 1, 2026 post-dated cheque for the balance.
- Insurance available sale day.

SIGHT UNSEEN PURCHASE PROGRAM: For those who cannot attend, we offer a Sight Unseen Purchase Program. Call us with your needs (birth weight, frame, weight, etc.) and we will recommend suitable bulls. We will deliver the bulls to you with a satisfaction guarantee. Your order will be handled in strict confidence. Call the owners, T Bar or any of the sale staff.

RIGHT TO DRAW SEMEN: In the event that we would like semen on any of the bulls selling, we reserve the right to draw semen at our expense and buyers convenience for in-herd use only.

DELIVERY: We will assist in making transportation arrangements outside MB and SK. All costs are the responsibility of the buyer. You may be asked to take your bull early if the truck is in your area. Each animal becomes the risk of the purchaser as soon as sold.

"Haul your own bull" \$100.00 OFF PER BULL

If you bring your own trailer and take your bull home, receive a \$100 credit off your purchase.

OR PAY \$100.00 upfront sale day and we will take the yearling bulls home, feed and deliver them by May 1, 2026.

Payable at the time of settlement. All bulls to be taken home and boarded must be insured.

NOTE: All two year old bulls must go home with buyer after the sale unless prior arrangements have been made with the breeder.

VIDEO SALE

Be sure to evaluate the bulls you are interested in prior to the sale as they will not be run through the ring.

FROM THE DESK AT T BAR C

It is with great pleasure that we welcome you to the 22nd Annual Best of the Breeds Bull Sale, set for March 29 at Heartland Livestock in Yorkton.

For over two decades, this sale has been a trusted source for quality seedstock, bringing together leading breeders who are committed to producing functional, performance-driven bulls for the commercial cattleman. The strength and longevity of this event speaks volumes about the consistency of the program, and the confidence repeat buyers place in these operations.

We are pleased to once again feature an outstanding lineup of consignors. The catalogue opens with the powerful and predictable Gelbvieh offering from Goodview Gelbvieh, setting the tone for the depth of quality throughout. The Charolais division follows with a strong set of bulls from Harcourt Charolais and Dog Patch Charolais—cattle known for performance, muscle expression, and herd sire presence. A very impressive group of both Fullblood and Purebred Simmentals comes next from Forden Fairview Farm. This powerful set offers calving ease options without sacrificing the performance and maternal strength the breed is known for. Rounding out the sale is a dependable and performance-oriented group of Black Angus and Angus/Simmental bulls from Black Ridge Angus Farm. These bulls are designed to add pounds, predictability, and profitability to any operation.

The Best of the Breeds Bull Sale has always been built around practical cattle for real-world conditions. Whether you're searching for calving ease heifer bulls, performance sires to add growth and payweight, or maternal strength to build your cow herd, you will find a strong selection represented on March 29.

We encourage you to study the catalogue, visit with the consignors, and evaluate the bulls prior to sale day. The breeders stand firmly behind their programs and are committed to customer satisfaction.

If we at T Bar can be of assistance in evaluating the offering or helping you make your selections, please don't hesitate to reach out. We look forward to visiting with you sale day in Yorkton.

GOODVIEW GELBVIEW

Welcome to the 22nd Annual Best of the Breeds Bull Sale. We are very excited about the bulls we will have on offer once again this year. We will have both red and black bulls that will work both on heifers, as well as performance bulls to produce those scale busting steers. Our bulls come from good footed, neat uddered, low maintenance cows. At Goodview we put a lot of emphasis on our cows, so you can buy with confidence knowing that the bull you purchased is from a sound, problem free cow herd.

Gelbvieh is a continental breed that has very strong maternal traits such as docility and rich milk that is produced in tight, correct udders. Gelbvieh will add that extra muscle to give your calves the extra pounds you're looking for at sale time. Gelbvieh calves are born with vigor, which is one of the reasons Gelbvieh influenced females wean more pounds of calf per cow exposed. Use Gelbvieh bulls in your crossbreeding program to get early maturing, long lasting females, as well as sale topping steer calves.

We continue to use a high fiber developer program. We wean the bulls off on oats then after 60 days they are pail fed a bull developer ration along with barley silage and grass alfalfa hay. This diet develops a healthy rumen, while maintaining good long-term health. We target a 3.5 lb. average gain to develop good footed, long lasting bulls that will last for their new owners.

Please join us on March 29 in Yorkton to evaluate our bulls and we can talk about your bull needs. If you can't make the sale, feel free to call or stop by anytime to tour the bull pen and the cows with their 2026 calves at side. Please join us for an afternoon of visiting and cattle viewing on Sunday, March 21 for our customer appreciation day and bull viewing.

Customer appreciation day and bull viewing SUNDAY, MARCH 21 at 1:00 PM!

Blair & Lorie || Courtney, Logan & Gunnar || Kelsey & Blake

PHG MISS PAPA RAZI C45

Sire of Lots 1, 3, 4
BLB Kingston 221K

BLB National 508N has earned the part as being our leadoff bull in this years sale. He is a powerful dark red son of BLB Kingston 221K. National has inherited all the best traits from his sire and his grandsire SLC Outback 142X. He is deep sided with a wide stance while exhibiting a big wide hip. He is smooth through his front with a very nice skull shape. Not only did he get the best from his sire but also his dam BLB 8G. She is one of our most beautiful correct females who is sired by RWG Captain, which definitely complimented the mating to Kingston. National is a herd sire prospect with a bright future. **HOMO POLLED**

GELBVIEW

Sire of Lots 2, 5 - **BLB Lincon 310L**

BLB Northstar 522N is a bull that will get your attention with his overall mass and eye appeal. He has led all the bulls in gains since birth. Northstar is sired by BLB Lincoln 310L, a bull we showed and sold out of the stall to Prairie Hills Gelbvieh in North Dakota. Northstars performance comes from a very stacked group of sires in his pedigree, with Flad Element, BLB Stacker, and RWG Exact Combination on his dams side. BLB Maxine 1H is a 2-time dam of merit and been a very consistent producer for us. Northstar has a lot to offer and add into any program. **HOMO POLLED**

Sire of Lots 1, 3, 4
BLB Kingston 221K

BLB Navigator 543N is another BLB Kingston son. He is a very dark red, eye appealing bull. He combines his eye appeal with an almost perfect structure. The Kingston sons have above average scrotal circumference which will increase carrying capacity. He was in our show string and has a puppy dog temperament. **HOMO POLLED**

Sire of Lots 1, 3, 4
BLB Kingston 221K

BLB Nova 505N is our third Kingston son. He has a little less frame than his brothers, but he is a tank. All 3 paternal brothers have made it into our leadoff group of power red bulls. These Kingston sons are all deep, wide based with a big hip. If you want calves that push the scale down or beautiful females look to add one of these Kingston sons.

Sire of Lots 2, 5 - BLB Lincon 310L

BLB Nevada 516N is another son of BLB Lincoln 510L. These Lincoln sons have a little more frame which gives them a bit more performance. Nevada is a long dark red bull who will add some pounds at weaning and still sire nice females. Nevadas dam is a RWG Right Combination daughter who continues to do a great job for us. She is a 4-time Dam of Merit.
HOMO POLLED

Sire of Lots 6, 7, 8, 9
RTG Locked N' Loaded L125

BLB Navajo 526N is our leadoff power black bull. He is one of 4 RTG L125 sons we have in the sale this year. They are all long spined and heavy muscled bulls with good sound structure and a nice skull shape. Navajo dam BLB 131D is a moderate big middled female from our Black Magic cow family, a family of beautiful females I'd want to build any black herd around. She is a 4-time Dam of Merit. BLB Newman 519N is our 4th red heifer bull. He is also sired by BLB Lucky 330L who did an awesome job siring calving ease sons with style and still have good growth. Newman will be our smallest of the 4 bulls which I believe will make him a bullet proof heifer bull. **HOMO POLLED HEIFER BULL**

GELBVIEH

Sire of Lots 15, 16, 19
AWB Universal 22L

BLB Nashville 547N is the first of three AWB Universal 22L sons to sell. Universal was National Champion Bull in 2025. We purchased him for his strong maternal traits and sound structure. Now that his first calf crop are yearlings boy are we pleased with the job he has done. His progeny are moderate in stature, deep sided with lots of rib shape and wide based. Nashville is a good example of the style that Universal sires. If you're looking for a herd bull to produce highly productive females look to Nashville to get it done.

HARCOURT CHAROLAIS

I want to welcome all of you to the 2026 Best of the Breeds Bull Sale. When I wrote this last year, we were talking about \$3,000 steers and how will the market react and how long will it hold. Little did we know that the rules of supply and demand would continue to drive prices even higher. Many of us selling calves off the cow this fall enjoyed steer prices in the \$4,200 - \$4,500 range with some reports exceeding that. With the shortage of beef world wide, more pounds produced on fewer head has to be our goal in order to fill the demand. There is no better way to do that than to use a Charolais bull! The feedlots love the way char x cattle convert feed into beef and are willing to pay premiums for those good calves.

Investing in a good Charolais bull will give you the most Return on Investment! With no sign of heifer retention on the horizon, these markets are here for the foreseeable future. Enjoy every minute of these times, we deserve to be rewarded for our investment in the beef industry! We stand behind these bulls and believe that each one is built to succeed in your program. Feel free to reach out to Justin or myself before the sale about any of the bulls, we would love to help you find the right bull.

See you Sale Day!
— Doug

Maternal Sib - HBC Stealth 203K

Performance, hair and length are things we as beef producers all want in a herdsire. This guy has all of that and more. Troubadour has proven to add hair & performance along with great feet. His mother has proven she can do it before, producing an Agribition class winner, a feature bull to Rod McLean last year and she herself is a maternal sibling to last year's High Seller to Oakstone Land & Cattle. She is sired by the WCR Commissioner bull who is the easiest calving Charolais bull we have ever used with short gestation and high vigour. Bravo is built to be a legitimate Herd Bull! He has tons of hair, extra length and a proven pedigree on both sides. Top 1% for WW and YW, here is a bull with a ton of upside!

HOMO POLLED

Sire of Lots 20, 21, 22
LAE Troubadour 231K

This guy walked into the picture pen and immediately showed off just how good he is! Attractive fronted, thick butted and as good hipped as you can make them. Look at the spread on this bull with an 1010lb Oct 1 weight and a modest 81lb BW! Great disposition, big scrotalled, calving ease option for the cow herd! His mother is one of our top producers coming into her own, sending her last heifer calf to W2 Farms through the superstar sale. At 6 years of age she is one of the soundest structured, most balanced cows you will find. With the Troubadour calves being at the top of any bull pen across Canada, and a no miss mother on the bottom, Conquer will be one you need to circle in your catalogue. HOMO POLLED

Sire - RBM Keystone H41

This guy will impress you from any angle. Great skull, big top and extreme depth of rib. He is as easy doing of a bull as we have ever raised. All of this with large testicles and a great foot underneath him. This is a HERD BULL. Every great bull has a great mother to stand behind him. 4141B is a cow that is never overlooked when people tour through the herd. At 12 years old she is youthful, sound, fertile and has as nice an udder as you could make. She has sent progeny to other top operations across Canada such as C2 Charolais, Hunter Charolais and Balamore Farms. She also has multiple replacement females retained in the herd that carry on her legacy of perfect feet and udders. We cannot get enough of the RBM Keystone bloodline that sires this bull. His calves come early and unassisted and hit the ground running. They are hairy, easy fleshing and impress from an early age! Titan won't be hard to find on Sale Day! HOMO POLLED

DOGPATCH CHAROLAIS

Welcome to the 22nd annual Best of the Breeds sale. First off we want to thank all our past bidders and buyers for their confidence in our program. 2025/26 has seen another record breaking year in the cattle industry and the future so bright you gotta wear shades!

Having a live calf is of ultimate importance, and now more than ever. At Dogpatch Acres, we are proud to present another consistent and reliable set of bulls that reflect the goals of our program. Our focus remains on structurally sound cattle with moderate frames, with lots of volume, depth, and plenty of performance. Quality hair coats, docile dispositions, and proven calving ability continue to be essential traits in our selection process. Along with our senior herd sire, we have incorporated a diverse selection of AI sires to provide strong, proven pedigrees while focusing on calving ease without sacrificing performance.

Only the top end of our calf crop makes it into the sale. Careful culling throughout the year ensures that we offer bulls you can purchase with confidence, knowing they meet our standards for quality and longevity.

We also maintain reserve bulls for our customers throughout the season. Should unforeseen circumstances arise, we keep backup options available so no one is left without coverage. The two-year-olds in this offering were originally retained as insurance bulls and, fortunately, were not needed—making them a strong and dependable addition to this year's sale.

We invite you to review our offering and contact us with any questions. Visitors are always welcome to stop by the farm to view the bulls and their dams. Thank you for your interest and support. We look forward to visiting with you and hope to see you on sale day!

CHAROLAIS

Norad is a moderate framed, deep sided bull that processes good length of spine and a strong topline which contributes to his natural thickness. A structurally correct frame and solid running gear means Norad will be around for the long haul. A compact skull structure and smooth made front end will ensure calving ease. A nice hair coat and docile nature adds value to this package. **Top 20% birth weight, top 35% for weaning weight, top 30% yearling weight**

Sire - LT Countdown 9712 PLD

Great Cross. The Lt Countdown calves are built right for calving. A sleep easy bull with a small head and a bit more neck extension starts it off, followed by nicely laid in shoulders that allows calves to slip out easily and then explode once they hit the ground. Eye catching style is the reason these Countdown offspring have done so well on the show road. A nice spread in this EPD profile makes Nirvana one to take home sale day. Top 25% calving ease, top 35% birth weight, top 40% weaning weight, top 30% milk.

Power Bull. This thick made unit has got the frame to work on the big cows and will sire those exceptionally heavy weaning weight calves come fall time. A free moving stride ensures he will be able to cover some serious ground. A little bigger birth weight from a mature cow, but if you can handle that, look out when his calves hit the ring. With all that hair and pay weight, you won't be able to fit your wallet in your pocket! Easy fleshing, sound, and solid as a rock. Top 20% weaning weight, top 10% yearling weight, top 25% milk.

Sire - KS Level Up 13H

Great cross. For those guys wanting to try a Charolais bull, Neutron is a great choice especially for a British based herd. A choice birth weight, and his more than ample growth will put some punch into your calves, and ultimately, pounds on the scale. The Char cross advantage will add the extra pounds and extra premiums paid for your calf crop. He is built right to work on any herd. Smooth fronted, small head and long deep sides. We are confident that if you aren't already hooked on Charolais, Neutron will win you over.

Cowboy's Bull. Nashville is a AI sired young bull that we are pleased to offer. Boasting an optimal 91 lb birthweight and having one of the heaviest weaning weights, Nashville will be able to cover the big pastures and breed the mature cows. Built right, this long spined individual moves out well on a great undercarriage and has the tools to do the job. A nice straight top and clean sheath combined with good hair and great feet makes Nashville a great sale day choice.

CHAROLAIS

Sire - Turnbull's Lego 813L

Red Option for Heifers: True to his namesake, Napoleon is small and mighty. Starting off small, this red bottle rocket really cranked it up. Smooth fronted, square hipped, strong topped with lots of wavy red hair are attributes passed down through this proven pedigree. Great body and skull shape and sound in his makeup, Napoleon will sire the eye catching heavy weight calves with color. Want to add color to your herd and not give up the Charolais advantage? Napoleon is your sale day option. Top 25% calving ease, top 20 % birth weight, top 30 % yearling. Top 25% milk

CHAROLAIS

Colored Option. A smooth, polled, red bull with tons of wavy red hair, volume and length. A real clean front end and a top you can shoot pool on and a big butt end! This is a bull that could set you up in a purebred operation or top the market with a bunch of calves that look like this. His sire goes back to the prolific Duty Free bull that needs no introduction and reared by a proven breeding matron. By the way, have a look at his calving ease and birth weight EPDs. Combine that with his fantastic weaning weight, you know you are getting the full meal deal in color! Top 20% calving ease, top 25% birth weight, top 20% milk

Sire - Cedarlea Houston 119H

Tank: Each year Venus 12F cranks out a moderate framed calf with a ton of long curly hair. This smooth made bull will sire calves that slip out easily and hit the ground running. A deep barrel with plenty of swoop and a strong top that carries down his quarter. A well developed frame and sound running gear will provide years of hassle free service. A nice clean sheath also helps to prevent issues in pastures where brush and debris may be a problem. Plenty of performance in this all around bull with a gentle disposition

A stylish moderate framed bull that has as much middle and depth as any of the bulls in the pen. His overall capacity gives him the ability to convert feed into pounds of beef, which is evident in his awesome weaning and yearling weights. Besides built in calving ease, Nimbus will add depth and volume to your calves which will result in heavier calves come sale time. Great footed and good tempered. Top 10 % calving ease, top 15% birth weight.

CHAROLAIS

Sire - Cedarlea Houston 119H

You know you're on target when you have calves that look like this. Strong topped, square hiped, and naturally thick, best describe this bull. Fathered by our senior herdsire, LEO Houston, you can be assured of a bull that is good footed, has loads of hair and polled performance. This young sire can move well and is ready for the big pastures, and packs a good sized tool box for the job! A real cattleman's type of bull with calving ease and power built in!

The youngest calf in our offering but you would never know. Norway is a red meat making machine. His excellent skull structure, neck extension and smooth shoulders, contribute to the calving ease. A long, wide topline and big pants go along with this package. A heavy milking second calver put it all together in this prospect. Great performance out of a young calf.

Sire - Cedarlea Houston 119H

There are two bulls that we walked that have made a lasting impression. LEO Houston, and MVY Allstar. Navigator is the combination of two great breeding profiles. The calves are built right for calving with small heads and a bit more neck extension to start it off, followed by nicely laid in shoulders that allow calves to slip out easily and then explode once they hit the ground with solid performance. Navigator's eye-catching style, and proven pedigree makes him one to take home sale day. **Top 30% birth weight, top 25% weaning weight, top 35% yearling weight**

Nissan will be a valuable asset to any operation. He has the calving ease built in and the performance background that will give your calves the Char cross advantage in both weaning weight and a premium per pound in the fall. Nissan is a stylish calf with lots of volume, a nice hair coat, and a nice polled head are just a few of the attributes in his bank. Calving time will be stress free, but sale time will get your heart pumping when marketing these calves! Char cross calves are in demand and Nissan will provide a stress free way to improve your bottom line. **Top 15% calving ease and top 10% birth weight.**

This homo polled prospect is a bit younger than some of his pen mates, but is staying right with the pack. This long sided, sharp fronted individual has sound feet and legs to cover the big pastures, a nice polled head as well as a gentle attitude. This young gun has a little more stretch which will add some pounds to your calf crop and aid him in breeding the bigger cows. A great choice sale day, to run on the British based cowherd.

CHAROLAIS

Sire - Cedarlea Houston 119H

Metro is a young gun that is a treat to work with. Besides his deep quarter and strong top, this bull has a big barrel and a gentle disposition. Smooth throughout his make up, Metro will sire calves that are easy fleshing producing more pay weight. Metro was born easily, and has polled performance, which makes him a sure thing to run with your cows. Whatever color your herd is, this gentle giant will definitely provide the Charolais advantage. **Top 15 % birth weight, top 20 % weaning weight, top 20 % yearling weight**

Micron is a moderate framed bull with loads of natural thickness. A good top, square hip and length will help your calves crush down the scales come fall time. Micron has a nice clean front end and a small head, which will make calving a worry free time. Both sides of this pedigree offer great calving ability and growth. Have a look at his great spread in his EPD's. Good feet and legs were passed down through this pedigree.

CHAROLAIS

Sire - WGD RUGER 8J

An embryo calf off our donor cow. A free moving bull with great feet and legs that cover a lot of ground in the big pastures. A real powerful calf that will breed the larger framed cows and reward you with outstanding performance. Three flush mates were snapped up by Jeremy Pletz at last year's sale. Style, performance, and quality throughout in a slightly bigger package. Recommended for mature cows. Top 15% weaning and yearling weight

Herd sire Alert. If you are looking for your next herd sire to have length, style, thickness, hair and homo polled performance you have to check out Magnum. An LT Badge son that will provide stress free calving, and backs it up with polled performance and a solid structured frame. From the ground up, Magnum is good footed and straight legged, deep throughout his body and wrapped up in a luxurious fur coat. Born with an awesome birth weight this eye catching individual will lead you into the future. **Top 30% calving ease, top 40% birth weight.**

Testimonials

My first Charolais bull was used on my commercial herd back in 1974. I have used Charolais bulls ever since in 2009 when I purchased my first Charolais bull from Dogpatch and have been using their bulls ever since. We had trouble with one of Mick's bulls over the years but one phone call and 4 hours later he was in my yard with not one but two bulls to use for the breeding season. My money was totally refunded with no if's, but's or mayb's. All Dogpatch bulls are easy calving and very docile. It has been a pleasure working and socializing with Mick, Annette and Family. Best of luck in your sale!

Harvey and Gloria Hawreluik

CHAROLAIS

Lyle, Leanne, Carter, Declan & Mara Ken & Twila
Lyle's Cell – 306-290-5953

We are thrilled to welcome you to our 22nd Annual Bull Sale. Before we introduce this year's program, we want to take a moment to extend a sincere thank you to our friends at Twin Heritage, Mitch & Michael. They were superb sale partners for the past 17 years, and we wish them and their families nothing but the best in their future endeavors.

This year's offering is our largest and most consistent to date. We are proud to feature multiple high-impact sire groups, headlined by a large offering of Badger sons and the highly anticipated first sons of APLX Conway. If you are in the market for Homo Polled Fleckvieh bulls, we have a wide variety to choose from—quite possibly the largest selection you will find at any single sale in the country. Our lineup also provides the full color spectrum of the breed, including red, black, blaze-faced, and baldy bulls to suit any program. With cattle prices at record highs, the value of a high-functioning "momma cow" has never been more paramount. Simmental-cross females remain industry leaders by providing docility & fertility, maternal strength & longevity, and exceptional pay-weights in the fall. By adding Fleckvieh to the equation, you gain the "Fleckvieh Advantage": increased hybrid vigor for added performance and superior milk production in your replacement females. To offer you more certainty, all bulls are DNA tested for color, dilutor, and polled status (or known by pedigree). Our bulls are developed on a balanced TMR ration (barley & alfalfa silage, hay, cereal grains, and supplement pellets) to ensure they are fit and ready to work. They are on a full herd health program and will be double vaccinated with Fusogard to reduce the risk of foot rot.

Join Us for our Bull Pen Open House - March 14 & 15 at 1:00 PM – 5:00 PM at the farm

This is a great opportunity to spend extra time evaluating the bulls and discussing your needs with us. We also invite you to walk through the cow herd to see the genetic value and maternal power that back these bulls.

Follow us on Facebook "Forden Fairview Farm – Simmentals" to stay up to date with our program. Videos will be available on our Facebook page, DLMS and buyagro.com in early March. You can also scan the QR code throughout the catalogue for the direct video link.

APLX Conway 23L

Our search for a new Fleckvieh herd bull in 2024 led us to the Red Deer Bull Sale. We noticed Conway immediately as a powerful bull with a big hip, tremendous length, deep red color, solid feet, and a great hair coat. Backed by Double Bar D Confidence (sire of BLL Creed), we knew his daughters would be special. Conway has matured into one of the stoutest, most complete Fleckvieh bulls we have owned. We are equally excited by his first sons and the impressive group of daughters in our replacement pen. Sire of Lots 54-62.

HOMO POLLED 100% FLECKVIEH NON-DILUTOR

- First offering of APLX Conway sons. We are very impressed how he is working in our program.
- Dam is cherry red Eloquence granddaughter with excellent udder.
- Real eye catching herd bull with large attached goggles and liver red color.
- Hardy is big hipped, big middled and well equipped to get to work.
- Balanced EPDs with strong maternal values.
- Pictured here in early January, Hardy is sure to impress with his video and on sale day

Thank You to our clipping crew for making the bulls look sharp!

HOMO POLLED HETERO BLACK

-Bear brings a unique and valuable look to this year's offering as you don't find these Black goggle-eyed bulls very often.
-Excellent way to add some chrome to your calves while keeping your pasture black.
-Youngest bull in the sale, yet he ranks 4th for WWT, showcasing his explosive growth.
-Infusion of fleckvieh through his dam will ensure his daughters will have superior milk and added weight on their calves

HOMO POLLED HETERO BLACK

-Python is a son of the industry icon Cobra, and he carries the length, hair, and presence of his famous sire.
-Tracing back to the Destiny cow, Python comes from a lineage of high-fertility, high-capacity females.
-Calving ease option in the black division, offering a smooth, long-sided design and a deep, square hip

SIMMENTAL

It is a pleasure working with Forden Fairview Farm in developing their bulls. The bull feeding program is built to maximize forage utilization, gut health and as a result quality sperm production. Nutritional status of a bull, particularly from the previous 60-days can affect the semen quality being ejaculated today. Sperm production is a continuous process and proper nutrition is critical to maintain peak fertility and longevity of bulls. Bull calves are generally developed on grass with their moms on a quality mineral program.

Once bull calves are weaned, they are slowly moved onto a balanced TMR. The bulls are challenged with a forage-based TMR to help them develop and express their genetic potential. This is important for consistency of maturation and puberty of bull calves. Sampling and analyzing forages are important for properly balancing the overall ration.

Forage quality and digestibility are important for maximizing ruminal health. Matching suitable protein sources with proper starch with the available forage sources is key to promoting lean muscle growth. The addition of organic minerals are used to ensure proper immune function and overall health of bulls. All of these factors contribute to semen quality and conception within a herd.

If you have any questions about the nutrition program, please feel free to reach out. Buy with confidence knowing the bulls have been developed on a balanced nutrition program.

Best of luck on sale day!

BLACK RIDGE ANGUS

Welcome to the 2026 bull sale! As I write this we are still seeing record prices for cattle and it is very welcome after struggling year after year. As much as I despise winter, the large amount of snow we have will hopefully fill our dugouts as last year was exceptionally dry. This set of bulls are developing on a free choice oats, hay and silage ration; we are also pail feeding them 5 lbs of rolled barley in the cold weather. They are NOT pushed, and are developing and growing out very well, the bulls by sale day will be around 12 months of age. We feel they are in excellent shape to go out and breed. Feel free to call or stop by at anytime. Please also check out our facebook page for pictures, videos and updates.

**Check out the bulls on our
Black Ridge Angus Facebook Page

We purchased Bravo, the 2020 lead off high selling Black Angus bull from Lewis Farms. This is his last set of calves as he is breeding his daughters, so at 7 years old he is working in a commercial herd, he looks amazing, moves like a cat, and still perfect feet. He has an impressive spread of an 80lb birth weight to 1537lb yearling weight, and is in the top 5% of the breed for scrotal. Longevity, functionality and performance.

We own this bull in partnership, so as a yearling he was used lightly and had a few calves here. If you are looking for performance and power this guy will do it, his epds have him in the top 5-10% of the breed for Weaning and yearling weight, Average Daily gain, Scrotal, heifer pregnancy, mature weight and height and functional longevity. We plan on using this bull much heavier this year.

When looking for bulls, the herd bull presence this guy shows is why we chose him, that and his dam is an elite dam and his great grand dam was a donor, cow power in his pedigree. He is very masculine with a small angus head, excellent scrotal and big middle. His epds also have him in the top 1-7% of the breed for weaning and yearling weight, maternal calving ease and functional longevity.

BLACK ANGUS

This bull came in dam, she was purchased out of the MWC dispersal. This guy was just 68lbs and was up and going on a very cold morning. His epd's have him at the top 4% of the breed for calving ease and birth weight, so a solid option for the heifer pen. He is moderate in size but is well muscled with good structure and testicle development.

Out of a first calver, but he does not lack performance as he weaned off at a respectable 740lbs, or adjusted 727lb 205 day weight. His dam is actually an embryo female who is a full sister to our high selling bull back in our 2015 Sale. Solid bull with a solid cow family behind him.

Half brother to one of our top selling bulls last year to King Ranches, this dam just does not miss. She has had 7 calves and the bulls averaged 80lbs and heifers 78lbs, very consistent beautiful cow. One of her daughters has a bull selling in this sale as well. This guy is a real tank in the pen, big old middle, hair and eye appeal

BLACK ANGUS

Consistent and strong in production with this cow family, this bull is related to Lot 94 & 98 on the dam side. With our drought this past year, it always impresses me when these females can bring wean 780lbs on brown grass.

A personal favorite of mine, we don't have many Profound calves as the bull is owned in partnership but hopefully this year we will be able to use him some more. His calves are bigger at birth but are born unassisted and they grow as this bull is our #2 weaning weight bull and his epd's put him in the top 7 & 8% of the Angus breed for weaning and yearling weight. Don't miss this fellow.

BLACK ANGUS

One of the first calves born of the calf crop, and he is a good looking bull! His mom is a young cow in her prime that keeps her condition, has a beautiful udder and teats. She is a daughter of the DMM Maximus bull so a lot of power in this pedigree, this cow family is also related to 2 other bulls in this sale, MJO 14N and 18N.
