

B BRANDL

BULL SALE CATTLE CO.

SATURDAY, March 14
4pm, At The Ranch, Jarvie, AB 2026

Welcome

Welcome to our 24th annual bull sale. While this event represents 24 years of sales, it reflects 50 years of dedication to the angus breed. As Landon said two years ago, prior to breeding season, this year's offering was intentionally bred with our 50-year celebration in mind. This sale represents that milestone and we are proud to present the strongest sets of bulls we've ever offered.

When Dad started this program 50 years ago, his intention was to build what we have today. All three of us kids feel a deep sense of responsibility – in the best way – to carry forward his vision, because his dreams also line up with ours.

Dad has always taught us many lessons over the years, but two stand above the rest. First, the value of our customers, many of whom have become our closest friends. Second, the importance of producing great angus cattle – cattle that can go out and work, not only for us but for our customers as well.

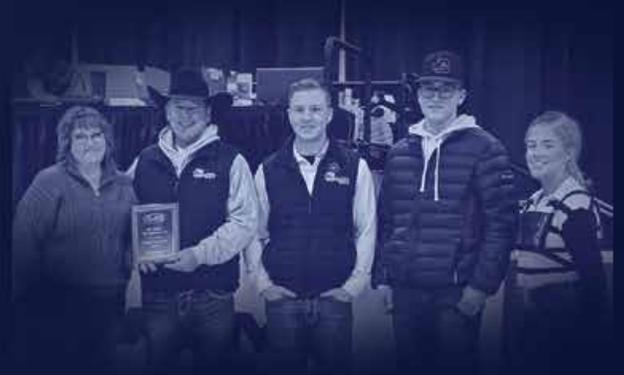

You'll see in the sale barn on display are the names of customers who have bought over 20 bulls from us over the years. We are incredibly grateful for the loyalty and support of all of our customers. One of those families is Brad and Christine Tymkow, who started their herd with heifers from our grandparents, Bob & Rose, and went on to purchase 34 of our top end bulls over the years. This year, we are honoured to take over the Tymkow cow herd. Brad and Chris, thank you for your support, we are humbled to continue what will always be known as "The Tymkow cows."

It may be cliché to say, but it's the truth, and we believe you'll agree when you see these bulls. Both Black and Red pens stepped up to the plate. The breeding decisions were exciting and the matings worked, thanks to angus cattle built on fertility, fleshing ability, and sound foot and udder quality.

You'll notice that our bulls are very similar in type and that is something we work hard to achieve. Our black bulls are strong as ever and one of our main goals in recent years was for our red bulls every bit as good. To bolster the quality of our red program, we are happy to announce the addition of the red females of Compass Ranch. We can honestly say, we've never been more excited about this group of red bulls.

Thank you for being part of our program and for celebrating this milestone with us. We look forward to visiting with you on sale day and thank you for helping us carry forward a program built on family, loyalty, and good angus cattle.

- Byron, Gwen, Kailey, Weyton, and Landon Brandt

BOHRSON MARKETING SERVICES

50 YEARS!!! What an accomplishment that truly is and we are proud to welcome you to the Brandl Cattle Co 50 Years of Angus Bull Sale. It is an honour to represent a program that has reached such a significant milestone, and even more importantly, one that has done so with integrity, consistency, and a clear commitment to breeding Angus cattle that work in the real world.

Fifty years in the Angus business is no small accomplishment. Programs don't endure for that length of time by chasing trends or shortcuts. They last because of sound breeding decisions, disciplined cow herd management, and an unwavering focus on the fundamentals of fertility, longevity, structure, disposition, and maternal strength. Brandl Cattle Co. has built their reputation on exactly those principles, and the offering presented in this sale is a true reflection of that foundation.

What sets the Brandl program apart is not only the quality of the cattle, but the people behind them. This is a genuine family operation where every generation plays an active role, shares the same values, and carries the same responsibility to the customers who invest in their bulls year after year. The loyalty shown by their repeat buyers speaks volumes and is a testament to the trust the Brandl family has earned over decades of standing behind their cattle.

This 50-year celebration has been intentionally bred into this year's offering. The depth, uniformity, and maternal emphasis found throughout this bull pen make it one of the strongest sets Brandl Cattle Co. has ever assembled. These bulls are designed to calve easily, perform efficiently, sire productive daughters, and hold up over time and those are traits that matter where the rubber meets the road.

We have tremendous respect for Brandl Cattle Co that stay true to their values while continually pushing forward. We strongly encourage you to study this offering with confidence, knowing it is backed by five decades of experience, a proven cow herd, and a family that genuinely cares about the success of their customers. Thank you for joining us in celebrating this important milestone. We look forward to visiting with you on sale day and assisting you in any way we can.

Best regards,

*Some Of The Females
That Started It ALL*

50 Years of Raising Angus Cattle

First 4H Steer

First Calf

First Herd Sire

Byron Brandl started his Angus herd in the fall of 1975. As a young entrepreneur he saw the value in the abundance of worms in a pile of horse manure and started a fishing worm business in the town of Sicamous, British Columbia. Over the summer of 1975 he sold enough worms to purchase his first purebred Angus cow.

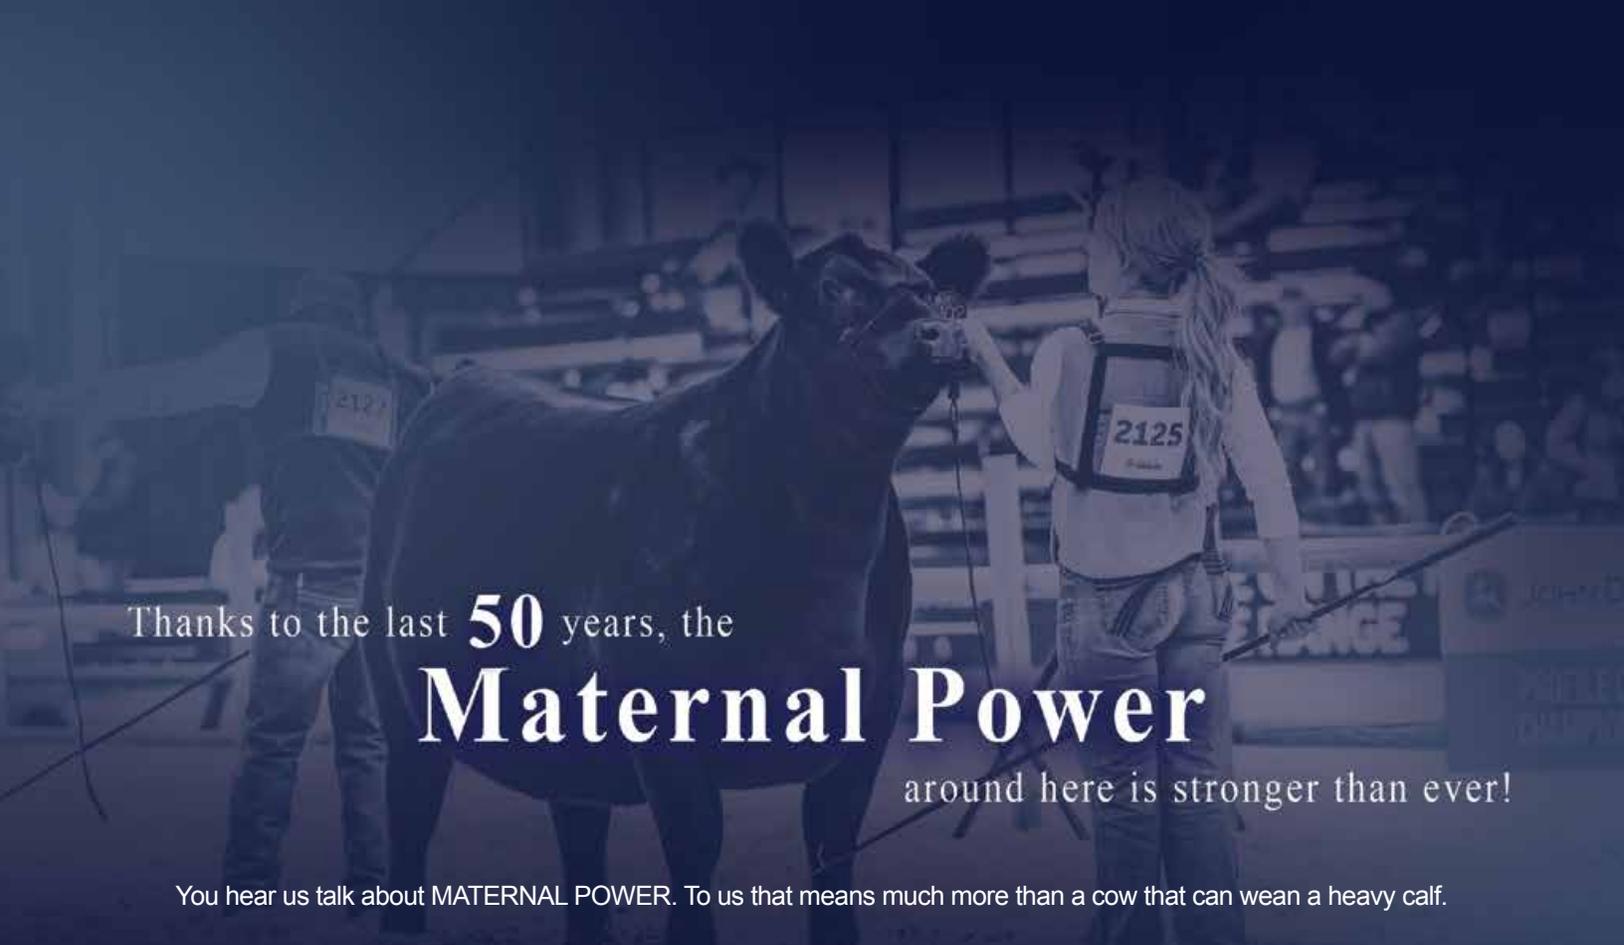

With Byron in school and his parents running a business he chose Angus for their trouble free, no nonsense ability to look after themselves - a philosophy still followed to this day. Back then being the only 4-H member with an Angus steer, he faced a lot of teasing about Angus being small and wild, which only empowered Byron to vow to raise a herd of Angus with performance and a great disposition. By the time Byron graduated from high school his herd was already being recognized as being a significant part of the industry. Having competed at the Canadian Junior Angus Show in Bashaw in 1983 and working for various breeders at the Cross Country Sale he formed friendships with many people both young and old and acquired many lifelong skills.

It was in the early 1980's with the addition of females from herds like Ed Rene Angus, Aberlynn Angus and Annsdale Farms that the quality of the Brandl herd really began to take shape. Ed Rene Black Velvet 38P, Aberlynn Miss Burgess 11'81, and Annsdale Lady Wren 8E can still be traced in the majority of the Brandl pedigrees.

In the fall of 1993 Byron moved to their present location at Jarvie, Alberta where he, along with wife Gwen and kids Kailey, Wynton and Landon, concentrate on serving the needs of their commercial bull customers as well as selling select breeding cattle and genetics to purebred breeders around the world.

Over the years Byron has been a director for the BC Angus Assn., Alberta Angus Assn., as well as the Canadian Red Angus Promotion Society and now Gwen is currently a director on the Alberta Angus Assn.

Kailey, Wynton and Landon are all very involved in the daily operation of Brandl Cattle Co. and are also incredibly active in junior shows as well as serving on the Alberta Junior Angus board. The Brandl family is proud of their 50 year milestone but also extremely enthused about their involvement in the industry over the next 50 years.

A photograph of a cow being weighed by a person at a fair or show. The cow is standing in a scale, and the person is holding a scale. The background shows other people and structures, suggesting an outdoor event. The image is overlaid with a dark blue tint.

Thanks to the last **50** years, the

Maternal Power

around here is stronger than ever!

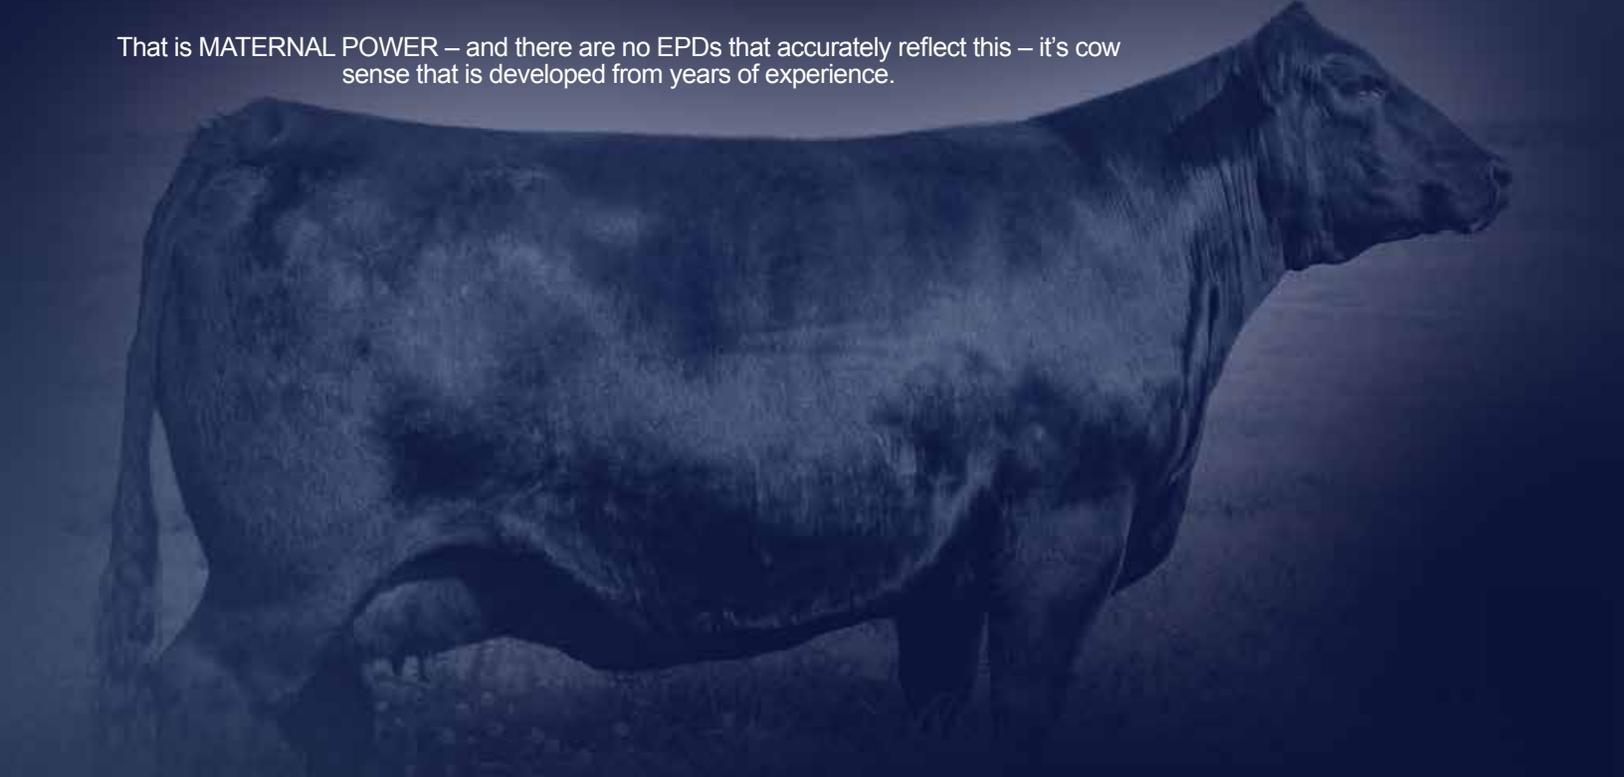

You hear us talk about MATERNAL POWER. To us that means much more than a cow that can wean a heavy calf.

MATERNAL POWER starts at the time a female conceives. A cow with true MATERNAL POWER must routinely breed in her first service on an annual basis. Through varying conditions of our environment she must maintain that pregnancy and maintain her condition while she is raising a calf at side.

When that female gives birth she must do so with zero intervention from us. Not just the act of pushing a calf out, but her ability and knowledge to immediately get up and lick that calf off, including removing membranes and stimulating the calf.

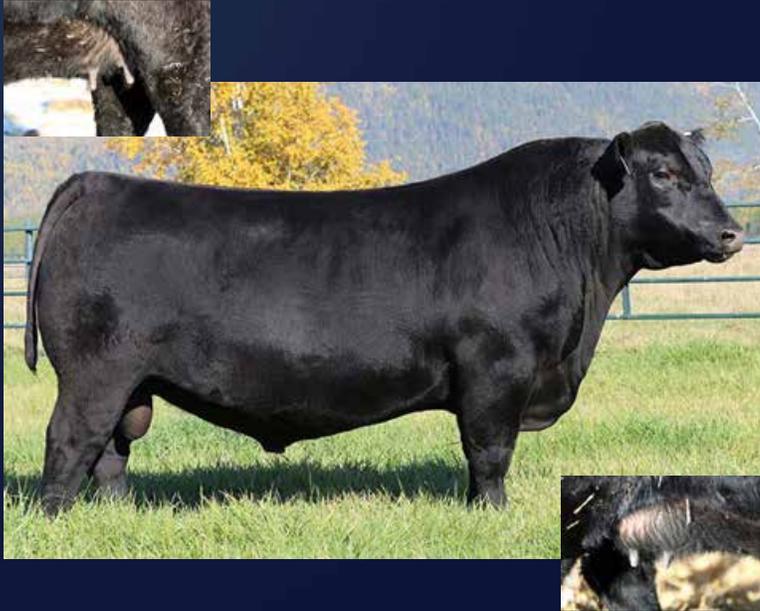

A cow with MATERNAL POWER will keep her calf safe and healthy, including environment and predators. A cow with MATERNAL POWER will wean a calf in excess of 50% of her own body weight. A cow with MATERNAL POWER must have the feet, leg and udder structure to do these tasks annually well into her teenage years. Fertility and longevity are the two most economical traits that we can breed for.

That is MATERNAL POWER – and there are no EPDs that accurately reflect this – it's cow sense that is developed from years of experience.

A photograph of a cow standing in profile, facing right. The cow is dark-colored and appears to be in a field or pasture. The image is overlaid with a dark blue tint.

Black Angus REFERENCE SIRES

Montana Judgement 1038 has been one of our favourite sires over the past few years and to see his daughters in production it's looking as though he's going to remain one of our favourites for years to come. He's now the first bull to have sired the Champion Pen of Three Heifers at the National Western Stock Show for two consecutive years in a row! A feat that's tough to accomplish even once. Judgement isn't just a bull who throws good udders, he is an udder improver and he packs a powerful punch along with his maternal traits. He's the bull that will produce powerful sons and females who are better than the cows they are off of.

BCC Bounty 38J is the king of the streets here at Brandl Cattle Co. Bounty carries as much muscle, power, and rib shape as you can find in a bull while still having that desirable Angus look. Over the past few years our Bounty calves have been one of our favourite groups as the sons are stout and heavy at weaning time, and the daughters also resemble Bounty's donor dam BCC Black Velvet 24A.

Coleman Rock 7200 is the kind of bull that ever rancher strives for. Long, smooth and muscular while being backed by one of the most recognizable cows in the breed, Coleman Donna 714. We have been a huge fan of the Rock calves since the day they were born. They come out vigorous, stout and just keep growing from there. It's hard to dislike a bull who's done as much good as Rock.

Coleman Glacier 041 carries the herd bull look the industry demands, combining power, presence, and structural integrity. He was the featured Lot 1 bull in the 2022 Coleman Angus Spring Bull Sale, where 25% sold for \$270,000. His dam, Coleman Donna 439, is a powerful, Pathfinder female with exceptional dimension, structure, and maternal strength. Glacier stamps his calves with fault free profile and you'll hear about his daughters for many years to come.

BCC Mr. Big 25L is the son of Compass Mr. Tibbs 11J who was shown successfully as a bull calf and went on to be our high selling bull in our 2023 sale. Mr. Big is backed by one of our most powerful and proven cows, BCC Miss Burgess 78F. When it comes to power, performance and maternal power it's tough to beat Mr. Big.

Riverfront Emerald 318L was the \$15,500 bull we purchased from the 2024 Riverfront Angus Ranch bull sale. His sire Brooking Emerald 9179 has sired many high dollar sons including the \$190,000 RF Lit Up 357. Emerald daughters around the country are some of the most productive and good uddered females in the breed. The Riverfront Emerald 318L calves come out smooth and really carry the ideal Angus look.

501 & 502 Grand Dam

Compass Mr. Tibbs - 502 Sire

501 & 502 Great Grand Dam

“Congratulations to Brandl Cattle Co. on 50 years of excellence! The answer to “Why does Meston Farms keep coming back and buying bulls year after year” is short and sweet. Quality, longevity, ease of calving, and performance conformity – exactly what every cattle producer is looking for in a bull. Best part of Brandl’s is that the sale isn’t done the day of the sale it’s the commitment to making the buyer satisfied for years to come. Any problems big or small, Brandl’s are willing to help solve it no matter what it takes. Whenever you can find bull breeders with such honesty and integrity as the Brandl’s - being past, present and future generations - you stick with them for years and years to come. The Angus industry and all producers as a whole should be honoured and thankful to have such a great family and genetics in the cattle industry. Good luck on the 50 th anniversary and we look forward to many, many years of business to come.”

- The Meston Family

504

- Performance, Maternal Power, Longevity
 - Actual weaning weight of 1074!
 - Sired by our 2024 High Selling bull to Grant Lodge Farms
 - Dam boasts a 108 weaning index on her first 3 calves

“I would like to take this opportunity to express my gratitude towards the Brandls on their 50th year raising Angus. During my start up years the quality of my herd was poor and my bank account empty. My first bulls come from the Brandls. Byron took a kid for his word and allowed me to make payments on several bulls. The first heifers I kept back came from those bulls and today I can feel pride in my herd. Using Brandl bulls, I almost never pull a calf, my calves just about hit the ground on their feet and go to sucking. It’s not easy for a young person to start out in the cattle industry and I have not forgotten the contribution from the Brandls.

Thank you for your support.”

- Cory Nottingham

“We bought our first bull from BCC around 25 years ago. They produce bulls that have body conformation, performance, maternal traits and disposition that we desire in our own herd.

Over the years of using their bulls we have noticed increased calf weaning weights while maintaining breed ability, condition and calving ease in the cows. With the use of BCC genetics we have created a herd that we are very proud of. We would like to congratulate the Brandl family on 50 years in the Angus business and continued success moving forward.”

- Brad, Christine Tymkow & Family

- Low BW, calving ease with an 861 weight at 205 days!
- You don't have to sacrifice weaning weight to have happy heifers
- 3.8 lbs per day from birth to weaning
- The Rider Pride daughters really get the job done
- Grand Dam who still has one of the nicest udders on the ranch is CAA ELITE with 9 calves at 107

Gearling Black Angus

Red Angus REFERENCE SIRES

Red U2Q Playboy 2197K was the \$62,000 high seller in the 2023 U2 Connection bull sale who grabs your attention from every angle. We have been super happy with the Playboy calves as they are clean in design, packed with muscle, and as structurally correct as they come. With two front pasture Queen donor dams behind him on the bottom side and Beauty 113Z on the top side, Playboy daughters are sure to do good for years to come.

Red BCC Brick 128L We purchased embryos on the \$28,000 Red Wilbar Helga 211E with intentions of making an exciting new herd sire and Red BCC Brick 128L is just what he hoped for. He's a long, powerful and attractive son of the great Red Mann Red Box 55C who has produced some of the very best young females in Canada. It has been super exciting to watch the development of Brick and some of his first progeny. Owned with Paul Grossenbacher

Red Wilbar Applejack 2K is a son of the \$21,000 Wilbar Crackerjack 73F out of a tremendous Riddler daughter. When we selected Applejack we were very pleased to see the generations of longevity through his pedigree as well as Crackerjacks pedigree. Applejack has been a big long calving ease specialist around here. The first Applejack daughters in production are excellent young cows.

Duff HD 2046 is the standout record-setting bull in the 2022 Power Plus Bull and Female Sale that was sold for \$150,000. He moves effortlessly, with his head held high, and boasts a long, level hip, pronounced stifle, sound structure, and a commanding presence. His dam Duff Cita 4060 15522 is equally impressive being a powerful daughter of Duff Napoleon 232. Quality and style are deeply rooted in this lineage, and we are confident that HD 2046 will have a lasting influence on the Red Angus breed and beyond.

- Low Birth Weight Playboy from an exceptional Razor daughter
- The Playboys are wedge fronted, smooth shouldered, and well- muscled
- The Renee family has really taken hold here – all descending from Red That’ll Do Renee 683H
- Fertility and Longevity with Grand Dam and Great Grand Dam still in production

“We have been purchasing Brandl bulls for 20+ years. During this time, it has enabled me to enhance the quality of my herd. I have kept back as many heifers as possible over the years. The results have been rewarding. We have never actually attended a Brandl sale. We always just call Byron and put in an order, sight unseen. Byron’s choices for bulls we purchase have always been well thought out and successful. The bulls are very manageable and easy to work with. Byron provides information about each bull, and is meticulous with the details of each. Honesty and hard work are the true value of life. The Brandl family has proven that is what it takes to be a proud family and friend. Wishing you a happy 50 th Anniversary, and manymore years of success.”

- Allan and Hope Bradfield

“The 127J we bought from you has an awesome disposition. I have never pulled a calf from him. The calves are very smart, friendly and curious. He throws super calves, big hind quarters. He has very good feet.”

- Russel Smutt and Sharon Holoiday

“I have been buying all my Bulls from Brandl’s since starting a cow herd 10 years ago. They are a key partner for my operation and have come seen my herd so they can help me pick the best bulls to improve it. Their bulls are easy to handle, easy calving with strong performance that has helped me produce bigger more consistent calves to sell year over year that are at the top of the market for price. Since I started with Brandl bulls I have been able to sell my calves one month younger and maintain my weights. My steers are consistently over 700 lbs and heifers over 650. They always have time to answer any questions I have and ensure I am fully happy with the bulls I have purchased. These are the reasons that keep me coming back year after year.”

- Paul Grossenbacher

Dusty Golden & Kailey Brandl

SLAPSHOT FUNDRAISER

50 years ago, in 1976, the most iconic hockey movie in history was being filmed. The movie starring Paul Newman and Jennifer Warren was released in 1977. One of the characters was "Barclay Donaldson". He was #9 and was the captain of the Broom County Blades. Barclay Donaldson is best known for his fight scene with Dave "Killer" Carlson. This scene in the movie is one of the most watched hockey fights in history. This character was played by our friend and neighbour Ross Smith. At the time he was playing professional hockey in the WHL for the Indianapolis Racers. Prior to that Ross played in the International Hockey League for the Columbus Owls as well as the Western Hockey League for teams like the Victoria Cougars and Calgary Centennials. We are so lucky to have Ross donate some memorabilia, including a signed movie script, signed autographs, Boom County Blades hat, T Shirt and beer cozy for us to auction with the proceeds going to the Fawcett Fire Department towards the purchase of a search and rescue 6x6 RTV. — Selling by Dutch Auction

TARGETED NUTRITION
Blueprint

Blueprint[®] advantage: Total Replacement Technology[™]

Alltech's Bioplex[®] and Sel-Plex[®] chelated trace minerals enhance animal performance at lower inclusion rates. With Total Replacement Technology[™] (TRT), mineral requirements are optimized, reducing environmental impact. As a leader in chelated mineral production, Alltech is committed to quality and research in animal nutrition. Feed your herd with Masterfeeds and Blueprint[®] for a significant growth and development advantage.

Formulated with Solutions from

Masterfeeds
an Alltech company

Sight Unseen Purchase Plan

We would like you to attend our sale, but if you cannot, Byron or any of our sales staff can personally handle your purchase. Call them with your specifications and discuss the offering, preferably a week before the sale. Byron or any of the sales staff will gladly assist with your sale selections and represent you on sale day. We guarantee full satisfaction upon delivery or you don't own them.

Semen Testing

All of the bulls selling will have satisfactorily passed a semen test by Barr-North Veterinary Service. We do not put any deferred bulls in the sale!

BCC Freeze Brand Number

All BCC bulls carry the 5 point star brand on the left shoulder, the BCC brand of quality. An individual freeze brand with their own number on their hip means no more reading tattoos when the bulls lose their ear tags!

Bull Delivery Options

Option 1 – Immediate Pick Up

Pick up your bull within 3 days of the sale and receive a \$100 per bull rebate.

Option 2 – Extended Pick Up

Pick up your bull by April 15 and receive a \$50 per bull rebate.

Option 3 – Delivery or Pick Up

Brandl Cattle Co. will deliver your bull free of charge at our earliest convenience following the sale or you may pick him up after April 15.

Bulls delivered further than 500 km will be at cost. A fee of \$3 per day may apply to animals staying past April 15.

All bulls staying at Brandl Cattle Co. are at the risk of the purchaser and MUST be insured.

Note: Possession and risk begins at the fall of the hammer.

We are pleased to be working with Elco Livestock on some of our long distance trucking needs.

Cody Doucette 780-243-4412

Yearling Bull Herd Health Protocol

All bulls have been vaccinated for Blackleg, Tetanus, IBR, PI3, BVD and other associated viruses/diseases as per the following schedule:

Birth: Vitamins ADE, Selenium, Toltrazoral, Nasalgen

March/April: Vision 8 Somnus, Bovishield Gold One Shot, Injectable Ivomec

September: Vision 8 Somnus, Bovishield Gold One Shot, Selenium, ADE, Ivomec Pour-On

February: Ivomec Pour-On

Terms & Conditions

CATTLE INSPECTION: All carry tags corresponding to the sale lot numbers. All bulls will be available for viewing prior to the sale.

BREEDING GUARANTEE: All bulls are sound and right, selling with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute, the regular terms and conditions, standard with the Canadian Angus Association shall apply. All complaints must be reported in writing by the buyer to the seller within 6 months and any animal returned must be free of disease and in good health.

TERMS OF SALE: Payment is due in full on completion of the sale. You may pay 50% sale day and post dated cheque for April 15 on the remaining balance. Any bulls not paid in full within 60 days will be subject to a service charge of 1% per month. No bulls will be released until satisfactory settlement has been made. All animals MUST be paid in full before leaving Brandl Cattle Co.

EXCHANGE RATE: The U.S. exchange rate on sale day will be announced, however, payment will be due in Canadian funds as announced from the auction block.

Insurance: Ownership risk to purchaser commences immediately. Livestock insurance will be available sale day. All bulls remaining at Brandl Cattle Co. MUST be insured!

LIABILITY: All persons attending this function do so at their own risk, and the owners and sale staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.

ANNOUNCEMENTS: Errors discovered in this catalogue will be corrected by announcements at the time of the sale and such corrections will take place over all printed material.
