ONLINE WITH DLMS FARM GATE

Welcome

TO THE SALE FROM BOHRSON MARKETING

On behalf of the entire Bohrsen Marketing Services team, we are pleased to welcome you to the 4th Annual Cowboy Trail Online Bull & Female Sale. This event continues to grow in both quality and reputation, and we are proud to once again work alongside the programs at Bar CL Livestock, 2K Springs and Eagle Ridge Simmentals as they present a powerful set of Simmental genetics to the industry. The Cowboy Trail sale has quickly established itself as a reliable source for practical, ranch-driven cattle that are built with purpose. This is not a one-style-fits-all offering; rather, it is a diverse, performance-oriented group designed to meet the needs of both commercial cattlemen and purebred breeders alike. Whether your focus is calving ease, added pounds, maternal strength or show-ring presence, this offering provides options across multiple divisions.

Bar CL Livestock and 2K Springs continue to make strategic investments in high-quality females, herd sires, embryos and semen packages to elevate their program. The results are evident in the bull pen with powerful purebreds with proven cow families behind them, strong performance data, and the structural integrity required to cover ground and last. You will notice consistency within sire groups, added frame and muscle where it counts, and bulls that are backed by productive, hard-working cows. Eagle Ridge Simmentals complements the sale with a strong set of both Purebred and Fullblood cattle, offering growth, milk and eye appeal in a functional package. Their program is rooted in dependable cow families and herd bulls that add maternal strength and longevity, while still maintaining the performance and phenotype that today's marketplace demands.

The online DLMS Farm Gate format continues to provide convenience and accessibility for buyers across the country. We encourage you to study the catalogue, watch the videos, and reach out to the consignors or any member of our team to discuss the cattle in greater detail. We have toured the bulls and would be happy to assist you in selecting the right herd sire or female for your program. With the strength of the cattle market and the importance of using the right genetics, investing in quality herd bulls and replacement females has never been more critical. This set represents value, honest breeding and the kind of cattle that work in real-world conditions. We thank the Clark and Koop families, along with Danny and Dallas at Eagle Ridge, for their trust and friendship. Most importantly, we thank you the buyers and supporters for your continued confidence in this growing event.

Best Regards,
The Bohrsen Marketing Team

WELCOME FROM BAR CL LIVESTOCK & 2K SPRINGS RANCHING

With such a busy sale calendar, it looked like our sale was going to be pushed into April. So to keep our sale date within March, we made the decision to go with the Farm Gate DLMS Online. We will be hosting an open house starting two days before the sale. Visitors are welcome, and we would love to see everybody.

I thought I would also give a quick explanation of the relationship between Bar CL Livestock and 2K Springs. Really, we run it as one operation with a few different families involved. Even our Verified Beef Plus Program and Herd Tracks incorporated into the program are all handled as one operation. So, if you're looking at a bull, it really doesn't matter which operation you have purchased from.

2K Springs is Larry and Julie Koop, Eldon and Kim Koop and their two boys. We also get a lot of help from Larry's daughter, Robyn, who handles much of the bookkeeping for 2K and some of our joint stuff. Larry has an extensive background in business, and his experience has been a great help as we have grown our operations and numbers to the point where we will be gathering 200 head.

On the Bar CL side, it is myself, Linus, my wife, Shari Leedahl and our kids, Jaycee and Carlee. Although not actively involved, Shari is a big support and always willing to lend a hand when we need it. She has just recently opened up a new business called the Trailhead Wellness Collective in Sundre. Our oldest daughter, Jaycee, has always been very active with the herd and wants to continue to make it a part of her life. She is currently attending SAIT and is in her first year of the Graphic Design program. Carlee is in grade 11, very active in softball, and is involved with the Bergen 4H Club.

I think we have a great selection of bulls. They don't all look the same, which is something we all strive to do, and we have something to offer everybody. We have been actively purchasing some very good females in the fall sales, along with semen packages and embryos, to drive our herd forward as quickly as we can. This has allowed us to offer some bulls that have really strong bloodlines, performance and calving ease, but perhaps not for the dollars you pay at an established herd program.

Thank you to our fellow consigners from Eagle Ridge Simmentals, Danny and Dallas. Please don't hesitate to call, come by or talk to the guys at Bohrson Marketing. Both Scott and Cody have been out and toured the bulls on a few occasions.

Northbound is for sure a standout in our bull pen this year. He is a bull who expresses lots of length and depth and all his outstanding qualities are put together in a flashy package with that added white face we love! 2 years ago 2K Springs and Bar CL purchased this guys sire from Westway Farms. His sire added lots of power to his calves and I'd have to say this bull is much like his sire in terms of his style and kind. Make sure you take a look at 24N he is very easy to spot when walking the bull pen!

Night Agent is a hairy bull out of a cow we think very highly of. Bar CL Georgiana 25J has had 3 strong black bulls in a row. 25N is sired by FGAF Mindplayer who has sired many of our sale bulls throughout the past years. Mindplayer is a bull who works well with almost all of our cows and we think his son 25N will be the same way.

This bulls bottom side goes back to the 548 cow family and his granddam is the dam of Bar CL Nettle 7N. As mentioned in 7N's write-up this cow family produces bulls similar in type and kind and these 2 bulls side by side prove that. 87N is another standout bull in our pen this year. He is a dark red power bull with lots of length and depth of body and is overall very smooth made. We think this guy will add some pounds to his calves and will be a great bull for someone.

We purchased Noble's dam WILC Lara 2L in 2024 from Wilcox Simmentals as a bred heifer. This guy is really smooth made and we think he could make a great calving ease prospect. He is in the top 10% of the breed for calving ease and the top 15% for birth weight. He himself was born at 73 pounds and he is sired by the popular Rust Henn Rambler who is also known for his calving ease and low birthweights.

844N is a long and thick bull with great pedigree on both the top and bottom. 844N is sired by the outstanding \$280,000 Mader Walk The Line 92J. North is the embryo calf from the powerhouse of a cow Springcreek Pearl 36H whose natural calf (36N) is also selling in the bull sale this year! When walking our herd his dam easily catches your eye with her structural correctness and overall eye-appeal. 844N is definitely hard to miss in the bull pen and top top things off he is in the top 10% of the breed for both weaning weight and yearling weight.

WELCOME FROM EAGLE RIDGE SIMMENTALS

We would like to welcome everyone to the fourth annual Cowboy Trail bull and female sale. First off a very big thank you to bar CL and 2K Springs Farms for letting us join in again this year. We are very excited to share with fellow breeders and commercial cattleman, what we have been working on in the last year.

Again, we are happy to offer some amazing open females as we feel that goes back to our roots from the Lucky sale so many years ago. As always, the best in breeding season and please, the coffee is always on, Stop in and have a visit!!!

Danny and Dallas and family.

 Nemo has been a favorite of mine from day one. His dam is a big-bodied cow going back to Twin Chief Bloodlines. We changed up our breeding program a bit last year by using our amazing Herd Sire, BEE Primo, on all of the purebred cows. This group of calves have been a real nice combo of Fullblood/Purebred. They are thick made and polled, have very reasonable calving ease and increased the milk numbers on our purebreds.

Fullblood

Nattalie is my favorite fullblood heifer. She is solid red, has a nice thick square build but is still very feminine in her make. She would fit right in for the purebred breeder wanting to outcross some genetics. The Wizard offspring seem to have very calm personalities and are a pleasure to work with.

DLMS FARM GATE Timed Auctions

www.farmgatetimeductions.ca

1. Visit <https://farmgatetimeductions.ca>, then click on the LOGIN/REGISTRATION button. First time users will select the REGISTER button from this page. Fill out the registration form to sign up for a free user account and it allows you to select a username and password for use on all Farm Gate Timed auctions. This program will send you text and email messages whenever there is activity on your favorite lots or someone challenges your proxy bid and this is why you will be asked for both your current email and cell phone number. If you are a past participant in the Farm Gate Timed auctions simply enter your user name and password to continue. This takes you to a list of both current and upcoming Farm Gate Auctions.

2. You can choose your favourite lots in this sale at this time and the program will allow you to open either all sale lots or just your favorite lots on your screen. Any time there is active bidding on a lot you have identified on your favorite list you will get a text and/or an email noting this activity.

3. The program allows you to place a proxy bid on any sale lot. This in fact protects your interest in any lot of interest for you to a specified dollar value you set, when you may not be able to give 100% attention to the sale. If the lot has a \$2000 bid on it and you place a proxy bid of \$3500 into the system, the computer will bid \$2100 for you but if someone else bids \$2200, the computer will again bid for you, this time at \$2300. The system will look after your interest to a maximum of \$3500. If another bidder is on at \$3600, your proxy will no longer be effective and you will no longer have the winning bid on this lot without once again logging in and bidding again or moving your attention to a second lot of interest.

4. At closing time of the sale the entire sale will extend bidding for 5 minute if a bid is placed on any lot in the sale. Any bid received after 6 PM will extend the sale by 5 minutes from the time of that bid. When no bidding occurs for 5 min the computer will declare the sale finished.

5. Within 24 hours of the sale close DLMS will contact winning bidders via email with an invoice payable to the consignors. Transfer of papers and delivery will be arranged with each consignor upon sale completion.

If you require assistance with using the new DLMS Farm Gate web site, if you don't understand how to create a favorites list, if you can't figure out the proxy bid or you just plain want to bid via phone, please talk to any of the DLMS team or Sale Consignors.

What is racehorse style sale close? Racehorse style sale close is when the entire sale stays open in extended bidding. This type of sale allows you as the bidder to change to a different lot within the same sale if the bidding has gone in to extended bidding.

How will extended bidding work? When we get to the close out end time the clock for close extends with any bid placed with less than 5 min on the clock. This type of extended bidding turns the end time to more of a soft time. Extended bidding allows bidders to compete in lots like a real auction and give all bidders the same time to make a decision. Always follow the clock to see how much time remains in the sale you are interested in.
