Welcome to the

6TH ANNUAL GENES OF THE FUTURE SALE

Like the last few years in the cattle business, 2026 has not disappointed so far. There is both excitement and optimism in the Hereford industry and cattle prices have been holding.

This year we have been given the honor of hosting the National Hereford Show at the Alberta Hereford Showcase.... 2026 marks the most consigned females to this sale.

We encourage you to take a close look at this sale offering. Canada's top breeding programs have entered a select group of females from the heart of their herds, giving you the opportunity to purchase a female that will add value to your program.

Our breeders have faith in the longevity of these females. Both the heifer calves and bred heifers on offer are an exceptional group that represent the very best of the breed.

We would like to take a moment and thank Bullseye Feeds for their continued support of our junior program with their generous donation that will be auctioned off.

The sale will be broadcast live on DLMS. Videos of sale animals will be posted on Thursday Oct 29th.

We look forward to seeing you at the National Hereford Show at Showcase.

If you have any questions feel free to contact Dave Dennis at 403.815.3161

Wednesday, October 28

Schedule

TERMS & Conditions

TERMS

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION

Each animal will carry papers issued by the Canadian Hereford Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

HEALTH

All animals in the sale have met all necessary health requirements.

GUARANTEE

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under terms and guarantees set forth by the Canadian Hereford Association with regards to health, freedom from genetic conditions and from both reproductive and specific genetic unsoundness.

PREGNANCY INFORMATION

All serviceable age females have been pregnancy examined by an accredited veterinarian.

LIABILITIES

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

PHONE, MAIL, WIRE BIDS

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

KEVIN SCHULTZ OF SANDHILL FARMS joins the 2026 Alberta Hereford Showcase and National Hereford Show.

sponsored by Canadian Hereford Digest

Kevin Schultz graduated from Kansas State University in 1986 with a Bachelor of Science in Animal Science. While at Kansas State, he was a member of both the Meats Judging Team and the Livestock Judging Team. After graduating from Kansas State he married Vera and they joined his family to become the 6th generation on the family-owned and operated farm and ranch located in south central Kansas. Kevin and Vera added the Polled Hereford seedstock business, now called Sandhill Farms, to what had been a purebred commercial Hereford operation. The farm consists of both grain and livestock. Kevin and Vera have three children, Brooke, Tyler, and Courtney and 9 grandchildren. Tyler and his wife, Hannah, are full-time operators in the family business representing the 7th generation.

Sandhill Farms won the Beef Improvement Federation "Seedstock Breeder of the Year" award in 2010. Kevin has served on the American Hereford board of directors, serving as Chairman of the Breed Improvement Committee for 2 years, and board president one year. Kevin has also served on the Beef Improvement Federation board for 7 years and served as president. Kevin served on the executive board of the Kansas Livestock Association. Kevin is also president of his local church board. In 2020, Kevin and Vera were awarded Kansas Master Farm Family.

The goal of the Sandhill Farms livestock breeding program is to provide genetics that are balanced for calving ease, growth, and carcass merit. The cowherd consists of 400 registered polled Hereford brood cows, and 100 commercial cows. They have ultrasounded the entire calf crop for Rib Eye Area, Marbling and Back Fat, since 1994. The registered cows are synchronized and bred AI, and the commercial cows and lower end registered cows are used as recipients for the embryo transfer program. The entire calf crop is DNA tested for enhanced EPDs and tested for all known genetic defects. The average EPDs for the sale bulls rank them in the top 15% of the breed for Calving Ease, top 20% for growth, top 5 % for maternal and top 1% for carcass traits.

After selling bulls private treaty for years, Sandhill Farms started hosting a production sale the 4th Saturday in March, starting in 2008. Currently, they are selling just over 150 bulls per year, with 20% going to purebred operations and 80% going to commercial breeders. They sell all the 5-year-old registered cows with heifer calves at side in the sale each spring. 90% of these have gone on to be donors. Also sold in the spring sale are commercial purebred Hereford heifers, and black baldy heifers.

Saturday, October 31st

LOT 1

14% *Bull Ration* FROM BULLSEYE FEEDS

Bullseye Feeds is pleased to offer 1 TON OF 14% BULL RATION as Lot 1 in the sale. The proceeds from the auction of Lot 1 will be donated to the Junior program at the Alberta Hereford Showcase. Bullseye Feeds is committed to supporting the development of youth in the cattle industry and their support of this event is greatly appreciated.

CONSIGNED BY 4D LIVESTOCK

Pippa is the kind your eye keeps catching when you are in a pen. She is so attractive, well marked, and classy. She is moderate in stature but massive in quality. She has always been a gentle, easy-going calf that will make a great project heifer. Her sire 6L was a favourite in Red Deer, winning Grand champion twice in the Junior Show and Reserve Grand Champion in the Open Show. You can see where Pippa gets her depth and correctness from when you see 6L. All his calves are low birth weight and patterned just like him. Pippa's maternal sister was the high selling bred female at the Showcase, selling to Twelve Oaks 3 years ago. She has another maternal sister that sold to Sadie Rude 2 years ago at the Showcase and a maternal sister that is also selling in this sale. Pippa will be the first progeny of 6L to sell. The quality and consistency of her dam is very obvious. This sweetheart of a heifer deserves a second look come sale day. Homozygous horned.

Nyla is no stranger to the Showcase, last year she was Senior Heifer Calf Champion in a very tough division. This soft made easy doing moderate heifer is very correct well pigmented and has a very good temperament. You can see she is going to have a nice udder with excellent teat spacing. Her sire won Showcase 2 years in a row and Agribition 2 years in a row. She has a very nice EPD profile and would be a great junior project or addition to a breeder's program. She is pasture exposed to a calving ease bull UU 743L Steller Lad 57N. 57N is a good numbered well pigmented well marked bull with plenty of length and deep bodied. Homozygous horned.

breeding

Exposed to UU 743L Steller Lad 57N from April 21 to July 2, 2026.

Dave asked us if we could spare our best for this sale, so here she is. *Note, Our offer to the Junior members for our Dec 4 Sale, will apply to this bred heifer. If a Junior purchases 27N, we will offer to keep her and calve her out this winter, then get her ready for Bonanza 2027 in BC. If our new junior owner wants to put the calf from 27N in our fall sale, it would be an option. I think this cow will make an awesome 2 year old pair. She's a Desperado out of our Eclipse 116G donor cow. She was shown herself very successfully at Bonanza as a junior project. Nothing but milk and perfect udder here. 116G's natural calf 10P sells in our fall sale. This heifer really checks all the boxes. She's big, powerful, has a great pedigree & one of our best heifers on paper. Great EPDs, 15 traits are on the right side of the graph with 3 of the 4 carcass traits top side, marbling top 20%. REA is a respectable 40% and milk top 20, teat and udder 1.3 & 1.4. She's also marked right. This one's a keeper.

breeding
Pasture Exposed to 520N & 536N from April 7 to June 4. Observed bred April 18 to 520N & 536N (Both Stardance Sons)

Once again, we're putting our best in this sale. 9P has already been on the show road and knows the winner's circle. She was 2nd in her class and top 8 in the All Breed Futurity at IPE. Her dam is a perfect uddered Blockbuster daughter that Kevin bought as a heifer calf. Her first calf sold to Oldland Brothers of Rifle Colorado, last fall as a feature. Not only is she a winner in the show ring, but top quality on paper especially on the carcass side. Probably our best overall carcass heifer. All 4 traits are in the top 30% with REA, Marbling and Carcass WT all top 20. Big growth numbers also. 9P's sire Copperstone is fast becoming a high favorite because of his daughters. Never seen a bad Copperstone udder yet. Juniors will have fun with this one. *Note, Our Hirsche Junior offer for our Dec 4th sale (special for Bonanza 2027) also applies to this heifer, only she will be shown as a bred heifer and not a pair. We will breed her to the sire of their choice if the new owner wishes.

SUNDAY, NOVEMBER 1

Annual Queen of Hearts Heifer Lottery Sale. Support Junior beef breeder enthusiasts!
 Three F1 Females will be on offer at auction after the lottery completes

High Class 257N is a big, powerful female from the very top of our replacement pen. She is the kind that will raise herd sires. Donor dam 9C raised 4 sale bulls in a row, two of which were lead off bulls in our Calgary Bull Sale strings, and has an average weaning index of 119. If we didn't have a full flush sister to 257N and more of these embryos in the tank, she wouldn't leave the place. CJHA Heifer Lottery Program eligible.

breeding
AI bred to CGC 77K MARKSMAN 37M on July 8.
Pasture exposed to RED SSS KOOTENAY 313M from July 9 to September 1.

Brilliant is sired by the 2023 Calgary Bull Sale Reserve Champion, Super Duty 11J, and a paternal sister to our People's Choice Champion female that led off this sale last year. Her dam 2K is a 3/4 sister to the lead off bull and high seller in our 2025 bull sale, CGC 0250 LONGMIRE 46L, now working at Rafter UU Herefords. Her great grandmother is a full sister to Yellowstone. This red eyed heifer has plenty of style, substance and great hair. CJHA Heifer Lottery Program eligible.

CONSIGNED BY DAWSON DALLAS

STARS®

My name is Dawson Dallas. I live on a 3rd generation Hereford and grain farm at Bowden, Alberta. The reason why I am donating a heifer to Stars is I have a huge heart and like giving back to my community. I am also a firefighter on the Bowden volunteer fire department. I believe donating to this cause is huge. Stars is a very important thing to serve our community and you never know when it could be that day that Stars will help you.

Little Fort Herefords is once again excited to be part of the Genes of the Future Female Sale. This marks only the third time in our 83 year history that we have sold a female out of the herd at auction. These two females were selected out of a group of 55 heifers for the sale, and each represents the best of our horned and polled programs respectively. We will be offering choice of the females. Each is a bit different, with the horned 71N heifer coming out of a fantastically uddered and surefooted cow that produced in the herd until age 13 and could have went longer. 71N is a stylish heifer that looks good from all angles, with a very respectable REA ADJ 365 of 10.55. Our Dominate 308 females have been some of our best. Great udders, and just the right sized cattle that really produce. The 105N heifer packs some power. She is a good tempered, alert and classy female with some real substance to her. She was our top indexing REA heifer, with an REA ADJ 365 of 12.66. Our Insight females have been everything we had hoped that they would be and more. The maternal cow family is probably our strongest on the ranch.

CONSIGNED BY BRYNN BURKHARDT

Here is a late March heifer calf that will definitely get your attention. She has a powerful pedigree, sired by Gerber High Time, out of a tremendous Cuda daughter purchased from Richardson Ranch. A female with a bright future, presence, and exciting EPDs with a great spread between birth, weaning, and yearling weights. We feel she's pretty special and would be an awesome heifer calf for a junior to show as she has taken to halter breaking in just days. Pele will add performance, growth and style to your herd.

BETTER YOUR BEEF

HEREFORD

Better returns with Hereford crossbreeding.

Progressive producers know that better beef comes from better crossbreeding. And that adds up to better profits. Crossing your herd with the best qualities of Hereford improves profitability through improved animal health, fertility and feed efficiency.

It's time to better your beef, and better your business, with the tried-and-true benefits of Hereford.
