# WELCOME to the sale

## FROM WESTHILL RANCH SIMMENTALS

WELCOME TO THE 2ND ANNUAL LEGENDS OF THE NORTH BULL AND FEMALE SALE!

Firstly, we would like to say “Thank-you” to all of you who made our First Annual Legends of the North Bull and Female Sale a huge success. It has been an absolute pleasure to get to know new customers and to continue business with returning customers. We greatly appreciate your trust and confidence in our program. You truly are the reason we do what we do!

We also want to extend a thank-you to our friends and family that help make this sale possible. Westhill Ranch is a family business and it takes everyone to make it happen. Whether it be calving, daily chores, sorting, weaning, clipping, picturing or sale day prep you will find a crew of willing hands making it happen and for that we are eternally thankful. We also want to thank our good friends at Morin Creek Angus for once again partnering with us to offer the very best Simm X Angus replacement heifers. New this year, they also have on offer two Angus, Simm x Angus bulls for your evaluation.

Westhill Ranch bulls and heifers are bred and developed with functionality as top priority. We carefully select industry leading AI sires and walking bulls to create structurally correct, free moving, performance backed bulls and females that are designed to go out and work. These bulls are pail fed a Bullseye Feeds bull supplement as well as a TMR consisting of chopped hay and cereal silage with Bullseye mineral. The purebred heifers have been pail fed a 14% protein pellet from Bullseye Feeds with a cereal silage ration. The bulls and heifers are on a full herd health program. They have been double vaccinated with Pyramid 5 + Presponse, Vision 8 and the bulls with Fusogard. They were treated with Cleanup II early in fall and Ivomec in the winter. In addition to the purebred bulls and heifers, we are once again pleased to offer the top of our commercial replacement heifer pen. These heifers are all sired by Westhill Ranch bulls and have been developed on a TMR of Cereal silage and chopped hay. These heifers are on the same full herd health program and are ready for breeding.

All of our animals sold, will be guaranteed under the Canadian Simmental Association Breeder’s Guarantee Guidelines. Should a problem arise, please reach out as soon as possible. We will work with you to get the bulls and heifers delivered in a timely manner that works for both parties.

We are proud to bring you our strongest set of bulls and females we have ever produced. Coffee is always on and we welcome you for a tour at the farm anytime. Bulls and heifers will be available for viewing at the Meadow Lake Stockyards March 21. Sale will be broadcast live on DLMS. We invite all past, present and future customers to join us for lunch at noon and the sale on March 22, 2026!

**LOT 4**

Mr. Thor is a true powerhouse in every sense of the word, this bull combines massive performance with a rock-solid maternal foundation. He is sired by HFL Mindgame 1005J, a sire that has worked exceptionally well in our program, consistently stamping his calves with added growth and the 'right' kind of muscle. Just as impressive is his dam- a strong- uddered female with perfect teat placement that we value above all else. If you are looking to inject heavy- duty performance while keeping a set of replacement daughters that will last a decade, this bull is the answer.

**HOMO POLLED**

**LOT 5**

Mr. Coventry is a thick haired star faced bull we think highly of. Another high performing bull stamped by the consistency of Mindgame who has done great things for our program. This easy doing thick muscled bull moves freely on a strong square foot. The type we strive to produce. He's sure to catch your eye too!

If you're looking for eye appeal and predictability, Mr. Top Shelf is the one. This bull hits you hard with a deep red coat that is as hairy as it is dark, but his value goes far deeper than his color. He is backed by a true "no miss" cow – a matron who brings a top tier calf every single year without fail. 506N inherits her consistency and maternal strength, making him a powerhouse prospect for the ranch who wants calves that look as good as they perform. A rugged, high-quality individual with the maternal backing to ensure his daughters become the front – pasture kind.  
**HOMO POLLED**

**LOT 7**

Mr. Freelance comes from our Freelass cow family - a long line of highly maternal, high producing, heavy milking matriarchs. With these traits, complimented by the consistent performance of Mindgame, he is sure to produce functional females and profitable males. We think highly of this smooth made, big hipped future herd sire. Look for this heavy haired, performer on sale day!

**LOT 8**

Mr. Notorious is a standout Fullblood prospect that bridges the gap between calving ease and high-end performance. Sired by SBV Reputation, a bull that has consistently excelled in our program, he brings that signature growth without the heavy birthweights. 517N is diluter free, ensuring he maintains that rich, solid pigment in your calf crop regardless of the cow base. Backed by a strong- uddered dam and featuring the structural integrity we demand. 517N is the total package for the breeder looking to advance their herd's performance while keeping a set of elite, functional daughters.  
**HORNED/DILUTOR FREE**

**LOT 9**

Mr. Chance is another standout son of SBV Reputation, he brings the same high-level consistency we have come to expect from this sire. This fullblood powerhouse is polled, offering the added convenience of a hornless head without sacrificing an ounce of performance. He is diluter free and offers a balanced profile that blends calving ease with explosive growth. He is backed by a highly productive, easy-doing cow that maintains her condition year-round while weaning a heavy calf. 519N is a front-pasture herd bull prospect with the proven genetics and maternal longevity to back him up.

**LOT 10**

Power, pedigree, and proven production all collide in 502N. Mr. Rimfire is sired by IPU 30-06, a sire known for injecting extra muscle, bone and performance into his offspring. We've seen an uptick in quality from this sire group, and 502N is no exception. The maternal side is where the magic happens. His dam, Divine 27D, is a cornerstone of our program that simply doesn't miss. She proved her worth on the big stage last year, producing the high-selling heifer in our sale to McIntosh Livestock. 502N shares that same high-end quality, offering the structural integrity and herd-bull presence required to move a program forward, if you're looking for a bull backed by a proven donor cow 502N is the one.

**HOMO POLLED/HOMO BLACK**

**LOT 14**

Not only did Ms. Divine 8G give us one bull in the sale pen but two. This highly maternal, moderate framed dam raised this well-muscled, thick haired, free moving IPU 30-06 son. We think highly of 30-06 and appreciate the muscle shape, strong foot and smooth shoulder he passes to his offspring. With intense eye appeal and performance 512N is a front runner when it comes to our favourite black bull in the offering. Invest with confidence! **HOMO POLLED/HOMO BLACK**

Mr. Yesavage is just a February bull born off a first calf heifer that has shown his performance to keep up with his January born pen mates. From our walking sire McIntosh Done Deal this bull displays the hind quarter, deep middle and smooth shoulder of his sire. Backed by a long line of Divine matriarchs this bull is one to seek out sale day.

**HOMO POLLED/HOMO BLACK**

**LOT 18**

Mr. Cliff Hanger is a bull that demands your attention the moment you walk through the bull pen. He has a pile of eye appeal, boasting the balance, style and presence of a true herd leader. This prospect is sired by our Black Gold Simmentals walking sire, who has proven to be a savvy investment, consistently stamping his calves with this kind of elite look and performance. On the bottom side, the quality continues with a strong-uddered dam sourced from the Mader ranches program. When you combine the maternal excellence of a Mader cow with the power and look of a Black Gold sire, you get a bull like 523N – built to produce beautiful daughters and high-selling steers.

**LOT 26**

Mr. Reload is a standout calving ease prospect that brings an added shot of style to the table. Sired by the calving ease sensation WLB Top Tier, this bull is built with the smooth shoulders and refined skull needed for a worry-free calving season. He is out of a first calf heifer who did an incredible job her first time out, proving her maternal worth and efficiency early. Despite his 88 pound birth weight, he doesn't sacrifice performance or look – he comes with the highly sought-after 'money stripe' on his face that will make his calves stand out at the auction mart. A perfect blend of calving security and eye appeal.

**LOT 27**

If you're looking to scale back cow size without losing muscle and 'meat-and-potatoes' utility, Mr. Top Notch fits the bill. This moderate-framed power house is built low to the ground and thick through his hind quarter, mirroring the productivity of his dam. She is a highly functional, moderate framed female with a solid, well-attached udder. 540N is a low-maintenance, high-return bull designed to produce easy-keeping daughters that will stay in the herd for a decade and steers that produce pounds efficiently.  
**HOMO POLLED**

**LOT 28**

We had bought some embryos a few years ago looking to raise the bar in our cow herd, we never did get a female out of the deal but looking at this guy gives me a lot of comfort. Hes the combination of power and maternal qualities that we look for, he's deep ribbed and wide up top and would work great on a group of heifers or cows.

Here's a son from a former agribition champion. We keep a few of our purebred angus cows to AI to Simmental bulls and this momma cow did an awesome job. He's a very athletic type of bull that moves effortlessly, and comes from a proven calving ease sire. Expect to be able to sleep soundly when his calves start to hit the ground and he should leave some top quality females as well

Ms. Raya is a phenotypic standout that immediately commands attention with her dark red coloration and exceptional hair quality. She is a product of the highly successful HFL Mindgame 1005J, a sire we have been extremely pleased with for his ability to produce consistently stylish, soggy and soft-made calves. The maternal side of this heifer is just as impressive. Her mother possesses a near perfect udder and her granddam is the Divine 27D matron – a true cornerstone female that has anchored our operation for years. This mating combines the proven structural integrity and maternal excellence of the Divine lineage with the power and added dimension Mindgame provides. Ms. Raya is a front-pasture kind of female with the genetic backing to become a foundational donor herself.

**LOT 31**

Ms. Briar 524N is an extremely hard female to part with, but when we started this sale, the deal was only the best will sell. Ms. Briar comes from our Freelass cow family – a strong maternal line of high producing, great uddered, heavy milking females. Front end pasture matriarchs and we are proud to offer one for your consideration. Freelass combined with our Black Gold Mountain View walking sire resulted in this beautiful female. With the hair, big body and muscle shape of Mountain View, this is a female to build a program around. 524N is sure to be a top producer for many years to come!

Ms. Abigail is built for those who appreciate a unique look backed by an honest cow. She immediately grabs your attention with her "money stripe", a visual signature that makes her an easy one to find in the pen. She is another high-quality product of HFL Mindgame 1005J, a sire we've come to rely on for his ability to stamp his calves with extra rib, hair and style. This heifer comes from a moderate-framed dam that is the definition of efficiency, sporting a solid, well-attached udder and a low-maintenance attitude. If you want a heifer that combines a flashy front-page look with the functional maternal traits of a moderate-size brood cow, 527N is the total package.

# thank-you TO OUR BUYERS IN 2025

The bull feeding program is built to maximize forage utilization, gut health and as a result quality sperm production. Nutritional status of a bull, particularly from the previous 60-days, can affect the semen quality being ejaculated today. Sperm production is a continuous process and proper nutrition is critical to maintain peak fertility and longevity of bulls. Bull calves are generally developed on grass with their mom's on a quality mineral program.

Once bull calves are weaned, they are slowly moved onto a balanced TMR. The bulls are challenged with a forage-based TMR to help them develop and express their genetic potential. This is important for consistency of maturation and puberty of bull calves. Sampling and analyzing forages are important for properly balancing the overall ration. Forage quality and digestibility are important for maximizing ruminal health. Matching suitable protein sources with proper starch with the available forage sources is key to promoting lean muscle growth. The addition of organic minerals are used to ensure proper immune function and overall health of bulls. All of these factors contribute to semen quality and conception within a herd.

If you have any questions about the nutrition program, please feel free to reach out. Buy with confidence knowing the bulls have been developed on a balanced nutrition program.

*Best of luck on sale day!*

## FROM MORIN CREEK ANGUS

**ARIC BURGMAIER**  
**TERA RENAUD**

**306-280-8850**  
**306-304-0575**

Welcome to our second annual legends of the north bulls and female sale. The first sale far exceeded our expectations. Our heifers sold to buyers in 3 different provinces and we had interest from buyers on the east coast all the way down to Montana. It was a pretty humbling feeling having as much interest in our program as we got and we really appreciate it.

This year we have a few less on offer as we try to continue to build our herd and take advantage of good beef prices. We also are doing something a little different and offering two of our bulls for sale right from the top of the pen. They are a good representation of our program, so make sure to have a look at them.

This year we have heifers sired by bulls from Wheatland, Crossroads farms and Hamilton farms and a few of our own bulls. Again bulls with maternal qualities and good disposition are the only thing you'll see walk our pastures. We focus on developing a good female and from there good weaning weights seem to be easy to achieve.

Don't hesitate to call with any questions on the sale offering or contact our sale staff. Our cow herd is something we take great pride in and really enjoy having people tour the herd or the bull and heifer pens and hearing feedback and different perspectives.

### HOW THE HEIFERS WILL SELL

Heifers will be sorted into groups of 3-6 and videos of the groups will be posted on our Facebook page Morin Creek Angus. We hope to see everyone there but if you're unable to attend in person, the sale will be broadcast live on DLMS. We would appreciate the heifers picked up on sale day but understand it's a busy time of year and are willing to bring them home until other arrangements can be made.

### HEIFER DEVELOPMENT

With the first two years of a heifers life being the most important to their development, we have worked closely with Ryley Noble of Bullseye Feeds to develop a ration of hay silage and pail fed oats with a custom free choice mineral to focus on health and fertility. They are wintered in a 4 acre paddock so they still have the ability to move around and exercise.

All heifers will be palpated for breeding soundness prior to the sale.

### HEALTH

We have a complete herd health program. At birth, calves are given Inforce 3, Vitamins A&D and Toltrazuril for the prevention of coccidiosis. In May, before hitting pasture and at weaning, they are vaccinated with Bovishield gold one shot, vision 8/somnugen and will have all pre breeding booster shots along with CyLence pour on in March before being sold.

### COMMERCIAL HEIFERS ON OFFER

Once again, we are proud to consign 21 Red Simm X Simm Replacement Heifers from the heart of our replacement pen. These truly are heifers that should be staying, but Dad is starting to slow down and Matt and Katelyn continue to work off the farm. These are daughters from honest, hard working, strong uddered cows. They are all sired by Westhill Ranch born and raised walking bulls. These heifers are on a full herd health program and have their pre-breeding shots. The heifers are not branded. Invest with confidence in these one-owner heifers, that are extremely hard to part with!
