- Bulls will be available for viewing all day
- Join us for an open house with complimentary pizza and refreshments

### FRIDAY, MARCH 20, 2026

- 12:00pm- Complimentary Lunch by Teresa's Catering
- 1:00PM MST PIRO/PIESCHEL BULL SALE

# Welcome

## FROM OBI LIVESTOCK LTD

I welcome you to the 2nd Annual Pieschel Farms & Piro Red Angus Bull Sale. Last year's sale was a huge success from top to bottom. This sale has everything you need and where you can get a Black Angus, Red Angus or Simmental bull from all at 1 event.

Pieschel Farms continue to develop a top-end program with the mother cow being the success of the program. When touring the farms over the years, you can count on just that. Keeping the cow herd at a number they can handle but the quality that is there is outstanding. Using current A.I. Sires and top walking bulls, the family operation has an exceptional offering this year. The bulls are fed right for longevity with lots of walking in the large pens they are fed in.

Piro Red Angus continues to grow up that ladder in the Red Angus Fraternity. The cow herd here is as strong as Red Angus herd as you will see. Power cows with tremendous udders and feet. You want power bulls that are dark red with the cows to back it up, here is your place. The offering consists of power and calving ease Red Angus yearling bulls that sure will please you. Piro Red Angus have the bulls in 3 pens at the farm for your viewing pleasure that gets them extra exercise.

Please do phone the consignors and go for a visit to the farms or call myself as I am very familiar with these 2 herds and the great offering in the catalog. See you March 20 at Stettler, AB.

Mark Holowaychuk  
OBI Livestock Ltd.

### TERMS AND CONDITIONS

**Announcements:** Any catalogue errors or changes will be announced at the sale from the auction stand at sale time.

All cattle sold are under the terms and conditions standard of the Canadian Angus and the Canadian Simmental Associations.

All bulls are semen tested and vet inspected and under a full herd health program.

# PIRO & PIESCHEL 2<sup>nd</sup> ANNUAL Bull Sale

## on offer

47 RED ANGUS YEARLING BULLS  
18 BLACK ANGUS YEARLING BULLS  
2 PUREBRED SIMMENTAL YEARLING HEIFER BULLS

# veterinarian letters

Welcome to the second annual Piro and Pieschel Bull Sale! We at Dr. Andy's Animal Clinic are so excited to work alongside Pieschel's and see the beginnings of their own bull sale coming together.

The great people at Pieschel's do an exceptional job of caring for all their cattle and we have nothing but good things to say about their program.

There is a strong herd health program in place that sets these bulls up for success. Starting with the mother cows who will receive a killed IBR/BVD vaccine, 8 way vaccine and scour vaccine prior to calving. The bulls will have received 2 doses of Bovilis Nasalgen, One shot BVD, and Vision 8 Somnus, once in the springtime and again at weaning.

Prior to the bull sale we will have completed a physical exam and semen evaluation of all bulls offered. Each bull will be assessed to determine soundness, body condition score, and to be free of external visible defects. The semen evaluation includes physical palpation of the internal sex glands, testicles and epididymis and a visual exam of the penis during semen collection. A scrotal measurement is taken to ensure that each bull measures above the minimum scrotal requirements. The semen is evaluated for motility and morphology and all bulls present at the sale will have received a passing grade of 70% or a decision deferred which means they will be reassessed and confirmed to pass prior to leaving the farm.

We wish nothing but the best to Pieschel's during their bull sale this spring and are happy to answer any questions that may arise about their program.

Welcome to the second annual Piro and Pieschel Bull Sale! We at Maverick Large Animal Vet Services are proud to hold a long-time partnership with the Zoller family. We have been working alongside Piro Red Angus since the very beginning, as they were one of our first clients when Maverick Large Animal Veterinary Services started in 2012. We have always been impressed with the overall health, body condition, nutritional status, maturity, and attractive eye appeal of their herd, and recognize the ongoing investment that the Zoller family puts into their program. The Piro breeding stock has accelerated performance and quality, which compliments the bull herd come semen testing time. Prior to the bull sale, we individually examine each bull for physical soundness and conformation, as well as reproductive soundness. This includes scrotal measurements and semen collection and evaluation. If there are any questions that arise

regarding this process or the individual results of any bull, we would be happy to answer them. It has been a pleasure continuing business with the Zoller family, and we wish them nothing but the best this season!

Molly Rainforth, DVM

# welcome from **PIRO** red angus

Welcome and thank you for joining us for the 2nd Annual PIRO & Pieschel Bull Sale.

Last year's sale was a tremendous success, and we truly appreciate the support and continued partnership from our customers and friends. We're excited to build on that momentum and are proud to welcome you back for another great year to be in the cattle industry.

Here at PIRO, we run approximately 240 registered purebred cows, along with a handful of blacks. Through vigorous culling and a strict selection process, we are offering 47 bulls in this year's sale. Our bulls are selected primarily on the history and proven track record of their dams. Females must be sound, structurally correct, and demonstrate excellent udder quality, strong foot structure, and longevity. Because of this focus, we are extremely proud of our 2026 bull offerings.

Management and development are important to us. Our bulls are weaned off the cow in mid-September, are never creep fed, and no bulls have had their feet trimmed. We believe this allows the bulls to develop naturally and gives buyers a more accurate picture of how they will perform in real-world conditions.

We are also pleased to offer open commercial heifers from our long-time, repeat customers at Hopper Farms. We find it important to show new buyers our genetics at work, and these heifers are a great example of the consistency and quality we strive for.

If you have any questions or would like additional pictures or videos, please don't hesitate to reach out to us or the O.B.I. sales staff at any time. We look forward to visiting with you and appreciate your interest in our program.

*What a bull to kick off  
 the 2026 Bull Sale Catalogue.*

Pizazz is impressive in every way, shape, and form. He combines one of the best herd sires we have ever used, Red Allison Design, with one of the greatest cows and cow families to ever walk at PIRO.

The Brandina cow family continues to prove itself at the highest level, producing outstanding females year after year. One sold at the 2023 Canadian Red Round-Up to T Bar K, and another was the high-selling heifer calf this past fall to Blairs.Ag.

With phenomenal udder quality on the females and a heifer-friendly, soggy, meat-machine type of bull, Pizazz's offspring should be truly breed-changing, improving both type and functionality for years to come. *Parent Verified*

Just one mile off old Hacket Road, this cow and bull calf pair spent the summer grazing and winning over everyone who toured our pastures.

Hacket stands out as one of the most complete and well-balanced bulls in the pen. Sired by our Hacksaw herd sire acquired from Triple L, he represents a line that has produced outstanding females with excellent udder quality and, most importantly, exceptional feet—the kind of structural soundness Reverence genetics have built their reputation on.  
*Parent Verified*

Red Triple L Hacksaw 1H Sire

# the **Addiction** sons

Steeldriver is a big scrotaled, powerfully built bull that has been a standout all year. He is sired by the impressive Addiction bull we showcased this past fall, whose first calves are proving to be nothing short of spectacular.

His dam, 740E, has built an outstanding track record here, consistently producing one of our top calves year after year. Steeldriver is halter broke, extremely quiet, and easy to handle. He would work very well in a heifer pen and has the power to service cows as well. *Parent Verified*

Just like his brother, this stylish Mossy Oak son comes from an absolute tank of a cow. She's deep-sided yet moderate made, with an ideal udder structure that's built to last.

5127N is a pen favorite—big ribbed, square hipped, and powerfully constructed. Calving these Mossy calves should be a dream, and expect his daughters to be heavy-milking, productive females that work in any program. *Parent Verified* **HEIFER BULL.**

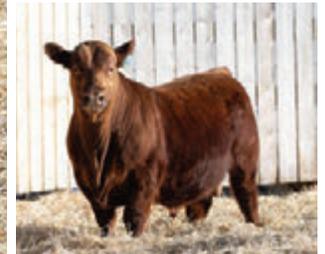

Maternal sister to sire

# the Hacksaw sons

Eye-catching phenotype with a smooth, well-balanced build. This bull features an ideal skull shape and exhibits strong calving-ease traits. He is wide topped, deep bodied, and packed with muscle, all while maintaining an elegant, athletic presence. Out of a productive second-calving Benelli daughter and stemming from the proven Brandina cow family. Hacksaw 507N posted an impressive mid-September weaning weight of 915 pounds! showcasing performance to match his look.

We typically don't retain bulls over 100 lb birth weight, but when one is this impressive, it's hard not to make an exception. Hacksaw is a big-boned, massive-hipped power bull with an excellent foot and plenty of spring of rib. He's backed by a highly productive Belinda cow family known for maternal strength, longevity, and consistently high milk production.

# the Momentum sons

A very dark-hided, sound-structured 310 Momentum son with added depth and balance. His sire is a full brother to the high-selling bull Damascus from last year's sale, offering proven genetic consistency. 525N traces back to the Redcap cow family, one of the most reliable and productive maternal lines in the herd. **HEIFER BULL.**

That Excellent Pick daughter absolutely knocked it out of the park. A first-calf heifer weaning a 760-lb bull calf by September 12 is no small feat— that's power, milk, and maternal instinct all lining up just right. **HEIFER BULL.**

# the Momentum sons

511N has undeniable herd bull presence. A big-boned rascal with a masculine crest and ample testicle, he commands attention. His young dam has outdone herself, weaning him off at an impressive 888 pounds on September 12. The 333 Momentum progeny continue to impress—uniform cattle with added growth and extra length of spine. *Parent Verified*

This guy is all meat and potatoes. The depth of rib and hair coat on 588 is hard to match. He's halter broke, extremely quiet, and was hauled to several shows this fall, so he's seen the road and handled with ease. Sired by our proven calving-ease 218K herd sire and out of a cow that has produced herd bulls for us in the past. 588 would work well on heifers and also offers a solid calving-ease option for cows.  
*Parent Verified.* **HEIFER BULL.**

# the **Comming In Hot** sons

Deep-sided heifer bull with tons of shape and natural mass. Incredible weaning weight on this guy, sired by our 218K herd bull that consistently adds muscle, depth, and power through the middle. A bull that brings performance and look together. **HEIFER BULL.**

Super dark hided, extremely long-bodied bull that grabs your attention right away. Smooth made with a proud, up-headed look and loads of eye appeal. Out of a first-calving Coming in Hot daughter that did an exceptional job right out of the gate and one we sure admire. Backed by Addiction, Coming in Hot, Longitude, and Game Face in the pedigree, this bull stacks calving ease and consistency, making him a true sleep-easy heifer bull option.

These Addiction sons continue to impress. We turned him out on a large group of heifers his first year and the calves came easy, hairy, and dark red with plenty of look. 583N is backed by a first-calver Foxy Lady female that traces back to some of the very first purebred cattle around here—a cow family that has stood the test of time and continues to deliver.

# welcome from Pieschel farms

On behalf of our family, we are so excited to welcome you back to our second annual bull sale with our good friends Mike, Jade, the girls, Pius and Rosemarie Zoller.

2026 is showing so much optimism in the cattle industry, it's a great time to be in the cattle business with record breaking prices this is the time to retain more females and purchase a new bull!

We look forward to sharing a very strong set of bulls that we have on offer this year. Quality over quantity continues to be our moto as we focus on moderate birthweights, high weaning and yearling weights, udder quality, good feet and leg structure, and docility. This year we have a wide variety of performance bulls and heifer bulls in our Angus pen and 2 unique heifer bulls in our Simmental line up all representing some of the top-quality genetics in each breed right now.

All bulls stay out on grass with their dam until the first part of September when we wean them where they are pale fed a super oats feed ration and on free choice hay. Our bulls have never seen creep feed and have not had their feet trimmed. All the bulls are docile and easy to be around.

We would not be able to make things possible around here without the help of some amazing people. Grandpa Gary, Doug Benneweis, Jace link, Buck and Renia Thompson, Devon and Jen Scott, Ryan Edwards, Jean Macaulay, Lexi Dietrich and the countless others who help us on and off the show road.

We would like to invite anyone to the farm prior to the sale to see the bulls, their milking dams and walking herd sires and as our numbers continue to grow, we look forward to welcoming new and repeat customers and friends.

**Devon, Rae-lee, Peyson & Nash**

**Grandpa Gary**

**Allen (Buck) Thompson**

- The reputation of 11N's pedigree did not disappoint as he has developed into an extremely attractive, deep ribbed, stylish bull with hair and a presence that catches your eye when you walk in the bull pen.
- An absolute female maker out of Natural Law, his flush mate hit the show road last fall and ended up being crowned as the "Show Angus heifer calf of the year" bannering at every show she attended.
- 11N's dam is a dominant powerhouse who at the age of 3 is already in the donor pen. Beautiful udder, foot and leg structure, elegance and the epds to back her up, the Black Lass cow family is one you will be hearing a lot more from.

- A heifer bull with power best describes 59N
- This March born calf had a 85lb birthweight, 944lb weaning weight and 1441lb adjusted yearling weight
- The Jokers Wild sons are stamped very similar, they all showcase a flashy look, fluid movement, natural muscle and docility
- Maternal brother was sold in last year's sale to Mark and Danielle Grant for \$10,000
- If you're looking for easy calving in the spring and heavy weaning weights in the fall, this is the bull

**HEIFER BULL.**

McDougall Rosebud 87J **Dam**

HF Joker's Wild 198J **Sire**

# the **Cheetah** cow family

- A huge part of our show string last fall, 15N has been a looker since day one
- Big time looker with some big-time performance, his adjusted yearling weight was 1467lbs
- Throwback genetics that have proven to work in our program repeatedly, SAV Net Worth has provided our herd with countless working females that last and big nuted bulls that move on to raise scale tipping steers and elegant replacement females
- Out of the matriarch of our angus program Cheetah 15X, we can guarantee longevity and beautiful udder structures
- 15N is a reliable option we know will work!

- Nicks 6N is a powerhouse bull with already so much hype around him. Part of our show string in 2025, 6N was crowned Reserve Grand Champion Angus at the IPE in Armstrong
- His maternal sister Echo 19M was sold in the 2024 Angus Collection for \$25,000 to Southern Comfort Angus, who made an impressive show run in 2025 as a bred heifer.
- 6N's dam's full brother just happens to be Cowtrax Milwaukee 153L, the grand champion black angus bull from Agribition and angus show bull of the year.
- This Hendrix son has so much power and depth of rib just like his sire did. A great option to put on your cows for some performance and style.
- A real looker with a pretty neat family connection, 6N is one you don't want to miss

## commercial heifers

### 67 5 BLACK ANGUS OPEN HIEFERS FROM JORDAN HOOPFER 403-323-0587

A really nice set of 5 Black Angus open commercial heifers, Born between march 15- April 20 2025. These heifers are age verified, have had bovishield one shot and 8-way at branding time and again in November 2025. Heifers have been given ivermectin and cylenece.

### 68 6 SIMM/ANGUS COMMERCIAL HIEFERS GARRETT AND AMANDA ROCKAFELLOW 403-861-6503

6 commercial simm-angus, born in March to April. These heifers are DNA verified out of Pieschel farms bulls, as well had a full vaccination at branding as well as this fall after weaning. These heifers are from moderate framed dames, that are backed by years of herdtrax data to perform well in the feedlot, and create our farms best made females.

### 69 5 COMMERCIAL HIEFERS RON AND LINDA HOPPER, HOPPER FARMS 403-350-8531

### 70 5 COMMERCIAL HIEFERS RON AND LINDA HOPPER, HOPPER FARMS 403-350-8531

We have been using only PIRO Red Angus bulls for many years as a part of our heifer breeding program. The predictable outstanding traits of the PIRO bulls have reliably given us high calving ease, great performance and top-quality herd replacement heifers. These pens of replacements are off polled full Simmental first calvers. These first calvers are sired by Epic and Mader/Westcott bloodlines and they are the top pick out of our 300 head commercial cow herd. The replacements are on our full herd health program and are palpated.

 Hypnosis for Health and Happiness

**Creating more value together**

At Trouw Nutrition, we work closely with our producers and their herds to meet their production and performance goals. Here at PiRo Angus, we incorporate our IntelliBond Mineral Technology complimented with the right balance of digestible fiber and gut health technology to maximize the herd's genetic potential for your reproductive benefit.
