INSURANCE

Stockmens Insurance

Cheryl Brown 403-601-3460
Larry Toner 306-932-4866

OPEN HOUSE

Open House and all day lunch and refreshments will be on March 11 at the Ranch from 11am to 5pm. Sale Close-out starts at 6pm.

VIEWING OF THE BULLS

We encourage you to come view the bulls anytime before sale day. For those who can't make it please call and we would be very happy to discuss your bull requirements.

DELIVERY

Delivery will commence April 1st unless prior arrangements have been made. For our Alberta Customers we will have an early delivery date and a later deliver date to accommodate your purchases. We will call after the sale to make arrangements.

WINTERING

Bulls remaining on the ranch after sale day are required to have insurance purchased. All bulls remaining after April 1st will be subject to a \$4.00 / day per head. We are happy to work with you for deliver or pick up.

SEMEN TEST

All bulls will be semen tested before sale day.

DIRECTION TO THE RANCH

East of Paynton SK 7 km on Hwy 16 to Range Rd 3203 turn south go 7 km to the ranch.

Average EPDs for all Red & Red Carrier Calves Born in 2025

TERMS & CONDITIONS

Terms: The terms of the sale are cash or check. All monies are in Canadian funds. The right of property shall not pass until after settlement has been made. All settlements must be made before any cattle will be release.

Disputes: Every animal sells to the highest bidder and in the case of disputes, the auctioneer's decision will be final. Announcements from the auction block take precedence over the printed matter in the catalog.

Purchaser's Risk: Each animal becomes the risk of the purchaser as soon as sold. Insurance will be available sale day.

Breeder's Guarantee: All bulls have been registered, unless indicated in the catalog, and papers will be transferred to the new owner. All bulls sold are guaranteed to the standard breed association guarantees. In no event shall the seller be responsible for reimbursing more than the purchase price.

Liabilities: All persons attending the open house at their own risk. The seller and /or sales staff assume no liability, legal or otherwise, for accidents that occur in, on , or about the premises.

Age Verification: All cattle at the sale are age verified.

Payment: Payment can be made by cheque, cash or etransfer.

IN HERD USE SEMEN

Rack Red Angus reserves the right to retain 100 straws of in herd semen on any bull in the sale at buyers convenience and our expense.

Welcome to the 2026 Rack Red Angus “Bulls With More Burger Than Bun” Bull Sale

We're excited to showcase a great set of Red and Black Angus bulls. This year's offering represents years of selection for calving ease, growth, soundness and efficiency with bulls designed to go to work and add pounds all while adding value and consistency to your cow herd. With the cattle prices at an all time high, it is most important to invest in quality genetics that pay you back. In today's market selecting sound performance driven bulls is not an expense it's a smart investment in the future profitability of your herd!

This year's offering we feel that we have focussed on calving ease and heifer programs. As well a mix of bulls that will suit larger framed heifers or work well in the cow herd. The bulls have been selected for foot, leg structure, smoothness but not to sacrifice growth and performance. We hand feed our bulls and grow them for longevity. The bulls will be vet checked and semen tested before sale day. We encourage you to come look through the bull pen at anytime before sale or call us to discuss your requirements. Mark Holowaychuck from OBI has been at the ranch and toured through the bulls and is also available to answer any questions or orders you may have. This year's sale will again be hosted on DLMS Farm Gate Time Auction. Bidding will open on March 10th and will have a sale close out on March 11th at 6pm. Details on how to participate on DLMS Farm Gate Auction is on the next page. If you would like to join us on March 11th, we will be hosting a Open House here at the ranch from 11:00am to Sale Close. Beef on a bun lunch and refreshments will be available all day and anyone wanting to view and bid on bulls can be done on site.

We maintain one thing! Our Success is only measured on your Success with our Bulls going out to work for you!

SopleasecomejoinussaledayMarch11th,2026,attheRanchatPayntonSaskatchewan.
If you have any questions in our offering, please don't hesitate to call or visit.

Clayton, Kathy and Marshall

HOW TO PARTICIPATE ON DLMS FARMGATE

1. Visit www.farmgatetimeductions.ca, click the LOGIN/REGISTRATION button. First time users will select the REGISTER button from this page. Fill out the registration form to sign up for a free user account and it allows you to select a username and password for use on all Farm Gate Timed auctions. This program will send you text and email messages whenever there is activity on your favorite lots or someone challenges your proxy bid and this is why you will be asked for both your current email and cell phone number. If you are a past participant in the Farm Gate Timed auctions simply enter your user name and password to continue. This takes you to a list of both current and upcoming Farm Gate Auctions.

2. You can choose your favourite lots in this sale at this time and the program will allow you to open either all sale lots or just your favorite lots on your screen. Any time there is active bidding on a lot you have identified on your favorite list you will get a text and/or an email noting this activity.

3. The program allows you to place a proxy bid on any sale lot. This in fact protects your interest in any lot of interest for you to a specified dollar value you set, when you may not be able to give 100% attention to the sale. If the lot has a \$2000 bid on it and you place a proxy bid of \$3500 into the system, the computer will bid \$2100 for you but if some one else bids \$2200, the computer will again bid for you, this time at \$2300. The system will look after your interest to a maximum of \$3500. If another bidder is on at \$3600, your proxy will no longer be effective and you will no longer have the winning bid on this lot without once again logging in and bidding again or moving your attention to a second lot of interest.

4. At closing time of the sale the entire sale will extend bidding for 5 minute if a bid is placed on any lot in the sale. Any bid received after 6 PM will extend the sale by 5 minutes from the time of that bid. When no bidding occurs for 5 min the computer will declare the sale finished.

5. Within 24 hours of the sale close the OBI and DLMS will contact all winning bidders to arrange payment, transfer of pedigrees and delivery/Pick up of your lot.

If you require assistance with using the new DLMS Farm Gate web site, if you don't understand how to create a favorites list, if you can't figure out the proxy bid or you just plain want to bid via phone, please talk to any of the DLMS team or Sale Consignors.

WHAT IS RACEHORSE STYLE SALE CLOSE? Racehorse style sale close is when the entire sale stays open in extended bidding. This type of sale allows you as the bidder to change to a different lot within the same sale if the bidding has gone in to extended bidding.

HOW WILL EXTENDED BIDDING WORK? When we get to the close out end time the clock for close extends with any bid placed with less than 5 min on the clock. This type of extended bidding turns the end time to more of a soft time. Extended bidding allows bidders to compete in lots like a real auction and give all bidders the same time to make a decision. Always follow the clock to see how much time remains in the sale you are interested in.

Reference Sire

Journey 60J stamps his progeny with balance, strong tops and longevity, making him a cornerstone bull for building productive profitable cow herds. Journey calves come easy but also with some power and his bulls are best suited for larger framed heifers and cows. He will impress you with his females and will sire those scale tipping steers in the fall!

Copenhagen 98J has truly been a game changer for us. His influence is evident in the consistency, quality and functionality of the cattle he's sired. He is setting a new standard for calving ease and performance in our program. He stamps his calves with balance, sound structure and added muscle while maintaining a practical problem – free design. He passes his cherry red color onto his calves and it is easy to tell who they are between the other calves. With a big majority of this years calves on the ground already we see a pattern in his calves. They are born easily, they get up quickly and nurse right away. This all reinforces our confidence in Copenhagen and the direction he will take our program and your program in the future.

RED RACK ROCK 17M - MAT. BROTHER

Copenhagen 5N maybe the best heifer bull we have raised here on the ranch. He combines calving ease with outstanding balance, structure and eye appeal. Making him the kind of bull you trust without hesitation on heifers. Smooth shouldered, clean fronted and straight topped, he is sound on his feet and legs and built for longevity. This bull represents the standard we strive for and sets the bar high for heifer bulls moving forward.

Dam Red Rack Rambo 221H has produced two herd bulls previously that have sold to Kelly and Peggy Donahue and Len and Dianne Carlson. Rambo 221H is starting to prove herself as a top end cow that gets it done. So if your looking for a bull to give you top end replacements or to sire a desirable set of steers that will be the money making kind, take a look at Copenhagen 5N on Sale Day. **HEIFER BULL**

Lot 7N

I hope I am not being repetitive on my comments on these Copenhagen sired bulls but they are all Peas in a Pod alike! Red Rack Copenhagen 7N is another bull suited for the heifer pen or would work very well with some second calvers. His Dam Red Rack Dividend 435K is a moderate cow with a great udder and darker muzzle. 7N has great length of body and has his daddy's tidy head and smoothness through out. **HEIFER BULL**

Lot 16N

Journey 16N is another bull who has great parentage. Dam Cola 90D has given us mainly females but her recent efforts were bulls that sold to Greenwood Red Angus of South Dakota and last year a bull that sold to Ben Ashley. Cola 90D is a larger framed cow that provides extra length in her calves. Journey 16N is solid built, thick and exhibits extensive rib and barrel shape. He stands on a strong big foot and has a great leg structure. His shoulders are smooth and has good neck extension and nice shaped head to aid in calving ease. We feel he will work on larger heifers and cows. **LARGE HEIFER OR COW BULL**

Journey 12N is a solid made and correct as they come. Sired by Mar Mac DM Journey 60J a bull we purchased to add thickness, and performance to our cow herd but not jepordizing calving ease. We love our Journey females that we have kept for replacements and have found his sons to top the scales at weaning and test weights through out. Journey 12N had an impressive weaning weight of 750lbs and hasn't looked back with a January 28th weight of 1210lbs. He has the herd bull look. Nuts and Butt! You can keep all his replacement females and have scale topping sons.

Dam Red Patchell Hey Hey was purchased out of the Ontario Finest Sale in 2023 from Patchell Livestock. Her first calf here at he ranch was Red Rack Blue Chip 1M that sold to Lee Nelson. Hey Hey is a moderate cow that is built very structurally sound and looking forward to her future calves she produces for us.

RED RACK BLUE CHIP 1M - MAT. BROTHER

Lot 20N

Lund 20N is out of a first calf heifer and Rosette 1L has done a great job on this bull. Rosette 1L comes from a very strong backed parentage to back her up. BCC Gattor, BCC Renee, Resolution, DKF Racer, Rack Makn Hay all calving ease lineage but nothing that sacrifices performance and growth. Lund 20N stands proud with ample heel. He shows excellent thickness through the middle of his hind quarters and a wide, flat back, indicating strong muscling. Lund 20N has a low birth weight making him an excellent choice for heifers. **HEIFER BULL**

MATERNAL BROTHER

Lot 25N

Lund 25N has been showing great growth on test since weaning time in the bull pen.

Dam Karma 14L was an easy choice to keep in our replacement pen as her Dam Karma 88X who has raised many progeny that sold to both commercial and purebred breeders. Karma 14L will go on to replace 88X as she is now deceased. Lund 25N combines structural soundness with performance traits. He was born unassisted at a moderate 80 lbs which reflects calving ease while still showing growth potential. He exhibits a smooth shoulder, clean front end and a strong top line with good depth of rib and square hip. Have a good look at this guy.

Lot 39N

Copenhagen 39N is another stand out heifer prospect, offering the kind of calving ease you as producers look for when breeding first calf females. He is smooth made and straight topped, with a clean front end and balanced design that supports easy births. He is sound on his feet and legs with adequate body and muscle. Copenhagen 39N maintains performance while staying heifer friendly. Dam MS Rouge 12G is a easy doing moderate framed cow with strong feet and udder structure. Her last years bull sold to Len and Diane Carlson. **HEIFER BULL**

Lot 40N

Copenhagen 40N is a bull best suited for larger framed heifers and would be an awesome choice for a young set of cows. He offers added growth, body and muscle while still maintaining a smooth correct build. This bull provides the extra power and consistency needed to add pounds and quality while keeping calving ease in mind. Dam Bertha 227H was sired by ACC Big Shot 118E who was a bull we bought from the Andersons to add some thickness back to our cow herd and what a great job he did for us.

Lot 41N

Copenhagen 41N is a very dark red heifer bull that brings eye appeal and shape to spare. He is smooth made and straight topped, with added muscle expression his top, and hip while still maintaining a calving ease design. Sound on his feet and legs and balanced in his profile. He offers both functionality and style. This bull is an excellent choice if your are wanting a heifer bull that adds color, muscle and quality without sacrificing ease of calving.

Lot 51N

Rack Journey 51N is a correctly built bull that offers versatility and confidence for use on larger framed heifers or cows. With a moderate 80 lbs birth weight, he balances calving ease with a long smooth made body, muscle, and performance. Dam NVG 6G is a tremendous cow that exemplifies everything we value in a productive female. She is deep bodied, sound, and easy fleshing, with the kind of structure and udder quality that supports longevity! She raised Rack Steller 24L that sold to Lee & Margret Donald in our 2024 bull sale.

Lot 64N

Rack Copenhagen 64N started off light at weaning at 575lbs September 15th but has excelled in the pen since. On January 28th his daily gain is tied for top gain at 3.98lbs per day and at that pace will have him weighing in around 1210lbs sale day and for a February 25th birth date I don't think that is all bad!! Take a good look at 64N's picture and notice just how well balanced this bull is. He ties everything together with a strong, straight top, a clean front end, and great depth of body. He is sound in his feet and legs, and has a very tidy skull shape that shows off his calving ease characteristics. 64N stands out in the pen for his correctness and overall functionality. We feel strongly that he will work well on heifers.

Lot 68N

Copenhagen 68N is a February 27th born calf that is showing a lot of potential. He does have a bit higher birth weight of 84 lbs but is still exhibiting easy calving traits. He has a very tidy head joining to a nice long neck and smooth shoulders as all the Copenhagen progeny exhibit. He has ample depth of rib and a muscled rump. I believe he would work well with developed heifers but the numbers on this guy says to use him on second calvers or cows. He is a bull that will sire great females and desirable steers that will make you money!

Lot 69N

Rack Journey 69N has an interesting twist to his pedigree as his dam, Fayette 44D is a black red carrier cow. She is sired by Black Brylor Kodiak 204Y and we all know how impacting Kodiak has been in the black angus breed .what makes this even more unique is her consistency - of the last seven calves she has produced to date only two have been born black, while the last five have come red!!! This pedigree adds an extra layer of intrigue,flexibility, and maintains the quality , performance expected in Journey 69N. These genetics will enhance any cow herd and the daughters will be extra special. Take a good look at Journey 69N as he will develop into a great herd sire as he matures.

Lot 74N

Rack Journey 74N is our youngest bull on offer for this years bull sale, With a March 2 birth date. He is a bull with a lot of length but has yet to completely fill his frame and muscle. He will work well with some heifers and especially if you breed later. Dam Fayette 441k is one of the Resolution replacement daughters that we kept out of the Fayette 44D cow I spoke of on the previous bull Rack 69N.

Journey 74N just needs some time to show his potential and we are willing to continue to develop him here until you are ready to turn out.

Non Papered Angus Bulls

THE NEXT FIVE LOTS ARE
Non Papered bulls out of
PUREBRED RED and BLACK ANGUS COWS

In the fall of 2023 we were offered a chance to purchase a group of non papered purebred cows from Nick & Loraine Van Gaalen of Fine Line Angus. This set of females consisted of 35 red and black Angus cows that had been purchased from a dispersal sale and all females were sold non papered. Nick assured us of the quality of these females and if you know Nick he knows a good cow from a bad one!!!! The cows came to us in calf and the first set of calves were calved out February to March of 24. This was a very strong set of calves and the cows were adjusting to our place very well. We made the decision to try to speed these cows up as quickly as we could and to pull the top end of the bull calves off and offer them in this years sale. These bulls on offer are sire identified and the cows they are out of are top end cows. I am writing this letter on February 03 /26 and in two years have already caught this group of cows up almost 45 days and have calved the majority of them out in the past three weeks !!! This is a great testament to the health and fertility of these cows!! Please feel confident that these bulls being offered from these cows will have the predictability of all our bulls and will be consistent with calving ease and performance.

Lot 14N

14N is a tremendous bull that pairs power and performance with a practical 86 lbs birth weight. He is big bodied, carrying a strong, straight top with muscle though his hip and stifle. Sound on his feet and legs and built with balance and durability, he is designed to grow, travel and hold condition. Dam 14H is a front pasture cow that if you had a 100 of her would be amazing in any herd both purebred and commercial. Bull 14N comes by his stature honestly and will be on asset to any group of cows he is put with. Don't miss this opportunity to obtain this outstanding bull as he is one of the best that we have raised! Sells with no papers.

BW: 86 lbs • Sept 15 WW: 770 lbs • Jan 28 YW: 1180 lbs ADG: 3.64 lbs/day

Lot 15N

15N is sired by Copenhagen and is a solid made bull built with function and reliability in mind. He is deep bodied and square hiped, with a strong straight top and plenty of natural muscle and capacity. This bull is the kind that will go on to work and add consistency. Giving pounds and longevity to any commercial cow herd. 15N again has a tremendous Dam behind him that is moderate made and puts all she has into her calves. 15N does have a bit more shoulder and we recommend him to breed cows. Sells with no papers.
COW BULL

S: RED HOWE COPENHAGEN 98J D: PUREBRED RED ANGUS 128H

BW: 80 lbs • Sept 15 WW: 800 lbs • Jan 28 YW: 1220 lbs ADG: 3.64 lbs/day

Lot 26N

In this group of cows was a good mix of Black Angus. Remember all cows were purebred but dispersed as cows with no papers. 26N is another bull to be used in the cow herd, with an 88 lb birth weight he strikes an excellent balance between calving ease and performance. He is solid made and well put together. Featuring and easy calving head, smooth shoulders and ample length. He is a bull that we feel checks all the boxes and will raise both replacement females and strong stout steers that will push the scales down in the fall. This bull sells with no papers.

BW: 88 lbs • Sept 15 WW: 775 lbs • Jan 28 YW: 1230 lbs ADG: 3.64 lbs/day

Lot 46N

46N is a bull we feel could work on larger framed heifers or cows. He is smooth in his design but is a twin and birth weight could fluctuate on this guy. His dam 332J is a smaller framed cow but very correct made and stands on a solid foot and has a great udder. This bull sells with no papers.

Rack 46N

Age of Dam: 4 - February 9, 2025 - Reg#: Unregistered

S: RED MAR MAC DM JOURNEY 60J

D: PUREBRED BLACK ANGUS 322J

BW: 75 lbs • Sept 15 WW: 635 lbs • Jan 28 YW: 1095 lbs ADG: 3.98 lbs/day

Lot 67N

67N is one of the youngest bulls on test with a Feb 26th birth date, but he is absolutely knocking it out of the park! He continues to rise to the top with his growth, performance and over all balance. Proving age is not a limitation. His dam CM20 is a tank of a cow but has perfect feet, a great udder and she raises a great calf every year. 67N is a bull that keeps improving and shows the kind of upside and potential that makes him exciting for the future. Sells with no papers.
